

Dear Dr. Bernard R. Glick,

I am applying for the Assistant Professor position in the Department of Biology at the University of Waterloo, which was advertised on the International Society for Microbial Ecology website. Having finished a Ph.D. with Dr. William W. Mohn at the University of British Columbia in early 2005, I am currently a Postdoctoral Research Fellow at the University of Warwick under the direction of Professor J. Colin Murrell.

My research focuses on the factors affecting the diversity and composition of microbial communities, and also on the discovery of novel organisms and metabolic functions that mediate carbon and nitrogen transformations in the environment. A solid familiarity with molecular and genomic techniques, as well as extensive experience with soil and aquatic environments suggest a good fit for me as a faculty member within the Department of Biology at the University of Waterloo.

The position description indicates the importance of active research and teaching for the candidate. As the attached curriculum vitae shows, my love for research in environmental microbiology and ability to communicate effectively have resulted in numerous publications and award-winning presentations. My enthusiasm for research is matched by my desire to bring innovative teaching skills to undergraduate and graduate courses. My university teaching experience has involved multiple teaching assistantships and the supervision of several undergraduate and graduate students. This background of research and teaching excellence will be critical assets as I begin an academic position involving externally-funded research and student education.

I would welcome an opportunity to discuss the position in more detail and am excited by the possibility of contributing to the high standard of education at the University of Waterloo.

Sincerely,

Thank You Letter To Phd Dissertation Committee

Arlyss Anderson Rothman

Benford's Law Mark J. Nigrini, 2012-03-09 A powerful new tool for all forensic accountants or anyone who analyzes data that may have been altered Benford's Law gives the expected patterns of the digits in the numbers in tabulated data such as town and city populations or Madoff's fictitious portfolio returns Those digits in unaltered data will not occur in equal proportions there is a large bias towards the lower digits so much so that nearly one half of all numbers are expected to start with the digits 1 or 2 These patterns were originally discovered by physicist Frank Benford in the early 1930s and have since been found to apply to all tabulated data Mark J Nigrini has been a pioneer in applying Benford's Law to auditing and forensic accounting even before his groundbreaking 1999 Journal of Accountancy article introducing this useful tool to the accounting world In Benford's Law Nigrini shows the widespread applicability of Benford's Law and its practical uses to detect fraud errors and other anomalies Explores primary associated and advanced tests all described with data sets that include corporate payments data and election data Includes ten fraud detection studies including vendor fraud payroll fraud due diligence when purchasing a business and tax evasion Covers financial statement fraud with data from Enron AIG and companies that were the target of hedge fund short sales Looks at how to detect Ponzi schemes including data on Madoff Waxenberg and more Examines many other applications from the Clinton tax returns and the charitable gifts of Lehman Brothers to tax evasion and number invention Benford's Law has 250 figures and uses 50 interesting authentic and fraudulent real world data sets to explain both theory and practice and concludes with an agenda and directions for future research The companion website adds additional information and resources

Zero Tolerance Discipline Policies Brian Schoonover PhD, 2009-03-20 Mandatory punishments for disciplinary offenses have been included in school districts Student Codes of Conduct since it was mandated by the Gun-Free Schools Act of 1994 While zero tolerance policies were initially created to protect students and teachers from gun attacks in schools the way in which these policies have actually been implemented in schools has prompted some parents educators and politicians to challenge them and call for zero tolerance policy reform Since 1994 a majority of school districts have expanded their use of zero tolerance policies to include infractions other than those included to keep guns out of schools Zero Tolerance Discipline Policies the first comprehensive study of its kind conducted by author Dr Brian James Schoonover examines the history of zero tolerance policies including the practice of adding offenses other than the possession of guns to these policies With practical action oriented recommendations on ways policymakers and educational leaders can improve how students are disciplined Zero Tolerance Discipline Policies offers recommendations on what should be included in a model Student Code of Conduct as well as a recommendation for starting a Three-CHANCE Changing Habits After New Character Education system of educational placements to ensure all students are educated in a safe and appropriate facility

The Greatest Love Story Never Told Richard Orion,2015-10-30 This story is based on a true love story that spanned almost two decades The names and places have been changed to protect the privacy of the individuals involved in this affair The chronological sequence of events has been maintained for continuity All the stories and experiences are based on facts This book is about a love story that was kept secret for 18 years and perhaps shouldve remained a secret The first book related to this love story was a book of poems entitled Somewhere Sometime Somehow Love Poems and Short Stories published in 2008 by this author and Xlibris For the perceptive reader of this book one can trace the ups and downs of our love relationship These 18 years were filled with robust love and passion for each other Perhaps it was fantasy perhaps it was the most real thing we will ever experience The heartbreaking part of this love affair is that I am not really sure my lover ever really understood or appreciated my profound and unconditional love for her I opened my heart to her through poetry and thoughtful letters but she rarely showed me what was in her heart Perhaps it was a one sided love affair but I surely think and hope not I was convinced that she truly loved me

through her words and actions At least I experienced a pure love that I had only dreamed was possible The story is told mainly through the exchange of letters and emails to each other Perhaps readers can experience and hopefully feel the deep love we felt for each other **1989 Scientific Sessions Book of Abstracts** Sigma Theta Tau International.

The Renewal of the Heart Is the Mission of the Church Gregory S. Clapper,2010-01-01 John Wesley has arguably influenced more American Christians than any other Protestant interpreter One reason for this wide influence is that Wesley often spoke about the heart and its affections that realm of life where all humans experience their deepest satisfactions as well as some of their deepest conundrums However one of the problems of interpreting and appropriating Wesley is that we have been blinded to Wesley s actual views about heart religion by contemporary stereotypes about affections or emotions Because of this it is rare that either Wesley s friends or his critics appreciate his sophisticated understanding of affective reality To make clear what Wesley meant when he emphasized the renewal of the heart Gregory S Clapper summarizes some recent paradigm changing accounts of the nature of emotion produced by contemporary philosophers and theologians and then applies them to Wesley s conception of the heart and its affections These accounts of emotion throw new light on Wesley s vision of Christianity as a renewal of the heart and make it possible to reclaim the language of the heart not as a pandering or manipulative rhetoric but as the framework for a comprehensive theological vision of Christian life and thought The book closes with several practical applications that make clear the power of Wesley s vision to transform lives today What Are You Doing About It? David W. Gill,2022-09-23 In his memoir *What Are You Doing About It* ethicist and activist David W Gill takes readers on an exciting inside tour of the academic cultural religious and political landscape in which he has lived and worked for the past several decades From Berkeley to Bordeaux Chicago to Boston from the business trenches and the local church to the seminary and the graduate school of business from marching in the streets to the writer s study from entrepreneurial leadership to institutional challenge Gill never wavered in his mission to promote the ethical insights and values of Jesus and Scripture in the workplace as much as the churchplace This is a story to inspire a new generation of thoughtful activists *Interdisciplinary Health Care Teams in Ambulatory Care: an Organizational Structural Adaptation to Environmental Change* Arlyss Anderson Rothman,2000 *After Hainan* United States.
