Dear (Name):

Thank you for your willingness to serve on the Teacher Interview Team. I really enjoyed the opportunity to work with you in the process of hiring new staff members. The task is critical, but with many hands, the work involved in screening applications, conducting phone interviews, and identifying the top candidates was a success. The new process we've used during our past two screenings has really assisted us in identifying those who best match the philosophy of (Name of School) School.

I hope that you found the process enjoyable. As always, change and revision help to improve our work. Please take a few minutes to reflect on the process and provide me with any ideas you might have for improving it.

Again, *thank you* for your contributions.

Sincerely,

Principal

transformative in the classroom and helping both students and colleagues achieve their goals A dictionary definition of professionalism reads as follows professionalism is the conduct aims or qualities that characterize or mark a profession or a professional person and it defines a profession as a calling requiring specialized knowledge and often long and intensive academic preparation Merriam Webster 2013 However according to Bowman 2013 professionalism is less a matter of what professionals actually do and more a matter of who they are as human beings Both of these views imply that professionalism encompasses a number of different attributes and together these attributes identify and define a professional The book is primarily intended for teachers at all levels and in all contexts who are interested in improving their professionalism and developing strategies that can take them to higher levels in the field of TESOL ELT
