Baroni, Ph.D.,2002-01-15 Over 1 700 alphabetically arranged entries cover the beliefs practices significant movements organizations and personalities associated with Zen Buddhism Ovid in China ,2022-07-18 Ovid in China offers a fresh look at an ancient Roman author in a Chinese context and often from a Chinese perspective The seventeen essays in this volume by a group of international scholars examine Ovid s interaction with China in a broad historical context including the arrival of Christian missionaries in 1294 the depiction of Ovidian scenes on 18th century Chinese porcelain the growing Chinese interest in Ovid in the early 20th century a 21st century collaborative project to translate Ovid s poetry into Chinese with commentary and comparative studies on such themes as conceptualization of time consolation laughter filicide and revenge **The Ladies' Repository** ,1858 **The Nation** ,1871 *Dictionary of the Bible* Augustin Calmet,1856 **Calmet's Dictionary of the Holy Bible** Augustin Calmet,1837 Midrashic Women Judith R. Baskin,2015-05-01 While most gender based analyses of rabbinic Judaism concentrate on the status of women in the halakhah the rabbinic legal tradition Judith R Baskin turns her attention to the construction of women in the aggadic midrash a collection of expansions of the biblical text rabbinic ruminations and homiletical discourses that constitutes the non legal component of rabbinic literature Examining rabbinic convictions of female alterity competing narratives of creation and justifications of female disadvantages as well as aggadic understandings of the ideal wife the dilemma of infertility and women among women and as individuals she shows that rabbinic Judaism a tradition formed by men for a male community deeply valued the essential contributions of wives and mothers while also consciously constructing women as other and lesser than men Recent feminist scholarship has illuminated many aspects of the significance of gender in biblical and halakhic texts but there has been little previous study of how aggadic literature portrays females and the feminine Such representations Baskin argues often offer a more nuanced and complex view of women and their actual lives than the rigorous proscriptions of legal discourse Famous Battles and How They Shaped the Modern World, 1588-1943 Beatrice Heuser,Athena S. Leoussi,2018-11-30 Why are some battles remembered more than others Surprisingly it is not just size that matters nor the number of dead the decisiveness of battles or their effects on communities and civilisations It is their political afterlife the multiple meanings and political uses attributed to them that determines their fame This ground breaking series goes well beyond military history by exploring the transformation of battles into sites of memory and meaning Cast into epic myths of the fight of Good against Evil of punishment for decadence or reward for virtue of the birth of a nation or the collective assertion against a tyrant the defense of Civilisation against the Barbarians Christendom against the Infidel particular battles have acquired fame beyond their immediate contemporaneous relevance The great battles of modern history examined in this second volume range from the defeat of the Armada and the relief of Vienna to Chatham Culloden

Waterloo Gettysburg the Somme and Stalingrad In each chapter the historical events surrounding a battle form the backdrop for multiple later interpretations which consciously or unconsciously carry political agendas some for further bloodshed and sacrifice but others for the more recent and laudable phenomenon of reconciliation over the graves of the dead
