

The American Revolution

The American revolution transpired in 1775. In 1765 Great Britain was in great debt caused by the seven-year war. Since they needed money quickly they started taxing the American colonies with an operation called "The Stamp Act". This ended poorly despite trying a second time. Both times they had to take down the taxes. By then Britain ordered 1000 troops to Boston to take control. With that, the tax on tea hadn't been taken down. Rebel groups started to burn vessels and buildings of Great Britain and of the ones who supported them. At some point, they started to dump tea of ships.

After that, Great Britain sent 3000 more troops causing Boston and Massachusetts to now be under the direct rule of Great Britain. The colonies all gathered with their best thinkers for their first continental congress. It consisted of John Adams, John Jay, George Washington, Samuel Adams, Patrick Henry, John Dickinson. They decided to tell the local militias to start arming. The British General Thomas Gage ordered 700 troops to the countryside to destroy stores of arms and ammunition controlled by the rebels in Concord. They set out in the middle of the night. Patriots like Paul Revere rode ahead to alert the rebels and give them time to prepare. Lexington was the place where the rebels met the British force.

At some point, someone shot. That shot which was "The shot heard around the world" marked the beginning of The American Revolution. The battle of Concord ended with the British under siege of the American Militiamen back in Boston. Col Benedict Arnold went to take British stronghold fort Ticonderoga. He was planning to get men on the way but found The Green Mountain Boys led by Ethan Allen. They wanted to work together but they each wanted to be in charge. In the end, the Ethan Allen won and led the attack. The attack was complete with no resistance. For this loss, King George fired General Gage and hired General William Howe. The congress decided to make a proper army they would first have to place a commander in chief. George Washington was picked and sent to Boston where the siege was still happening on.

Trying to break out of the siege the British forces were planning to take Bunker Hill. Before they did the information was intercepted. An American spy has now told the militia. They took a defensive position on Breed's hill and Bunker Hill. On June 17, 1775, British forces attack Bunker and Breed's hill. British forces tried to

The American Revolution Essay Paper:

Essays on the American Revolution Stephen G. Kurtz, James H. Hutson, 2013-06-01 These eight original essays by a group of America's most distinguished scholars include the following themes: the meaning and significance of the Revolution; the long term underlying causes of the war; violence and the Revolution; the military conflict; politics in the Continental Congress; the role of religion in the Revolution; and the effect of the war on the social order. This is the product of the celebrated Symposium on the American Revolution held in 1971 by the Institute. Originally published 1973. A UNC Press Enduring Edition. UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original and are presented in affordable paperback formats, bringing readers both historical and cultural value. *The Best American History Essays 2006* Organization of American Historians, 2016-09-23 Ten of the best articles in American history published in 2006 selected from over 300 learned and popular journals. Topics range from the general to the specific and cover all aspects of American history from the early days of the republic through the nineteenth and twentieth centuries. These are the questions that today's historians are asking. *Papers on the Constitution* Center of Military History, 1990 The Army's efforts in support of the Bicentennial of the U.S. Constitution took many different forms, including a Bicentennial Lecture Series. A group of distinguished historians presented papers that treat the whole spectrum of current research on the Constitution and its origins, especially the role of the Framers in the formation of the new Republic. *Papers on the Constitution* captures these scholars' pertinent, often intriguing conclusions. The volume makes clear to the men and women of today's Army that the Framers of the Constitution established for all time the precedent that the military subordinated to Congress would remain the servant of the Republic, a tradition summarized in every Soldier's oath to support the Constitution of the United States against all enemies and to bear true faith and allegiance to the same. **Finding List of the Free Library of the General Society of Mechanics and Tradesmen of the City of New York** General Society of Mechanics and Tradesmen of the City of New York. The ambitious few have led the gullible multitude to slaughter, and he rails against the British military for fighting a war of containment aimed at bringing the rebel leadership to negotiation. This policy effectually trapped the Loyalists between the British army

which ignored them and the rebels who despised them One of the best educated of the colonialists Odell a physician turned Anglican minister and then writer lived the gamut of experience powerful friends sustained him and the British commanders in chief Sir William Howe Henry Clinton and Sir Guy Carleton employed him nevertheless during the war he was a lonely exile Tory hunters forced him from his home in 1775 and at the end of the war when his hope for reconciliation between the Loyalists and the Americans came to nothing he reluctantly emigrated to Canada Here is a voice all but silenced for over two hundred years that must now be heard if we are to better understand the American Revolution **Catalogue of the Ames Free Library, North Easton, Massachusetts** Anonymous,2024-02-29 Reprint of the original first published in 1883
