As a period of film history The American New Wave ordinarily understood as beginning in 1967 and ending in 1980 remains a preoccupation for scholars and audiences alike In traditional accounts it is considered to be bookended by two periods of conservatism and viewed as a brief period of explosive creativity within the Hollywood system From Bonnie and Clyde to Heaven s Gate it produced films that continue to be watched discussed analysed and poured over It has however also become rigidly defined as a cinema of director auteurs who made a number of aesthetically and politically significant films This has led to marginalization and exclusion of many important artists and filmmakers as well as a temporal rigidity about what and who is considered part of the New Wave proper This collection seeks to reinvigorate debate around this area of film history It also looks in part to demonstrate the legacy of aesthetic experimentation and political radicalism after 1980 as part of the legacy of the New Wave Thanks to important new work that questions received scholarly wisdom reveals previously marginalised filmmakers and the films they made considers new genres personnel and films under the banner of New Wave New Hollywood and reevaluates the traditional approaches and perspectives on the films that have enjoyed most critical attention New Wave New Hollywood Reassessment Recovery Legacy looks to begin a new discussion about Hollywood cinema after 1967 *Unhappy Beginnings* Isabel

González-Díaz,Fabián Orán-Llarena,2023-12-22 This book offers the analysis of a selection of North American texts that dismantle and resist normative frames through the resignification of concepts such as unhappiness precarity failure and vulnerability The chapters bring to the fore how those potentially negative elements can be refigured as ambivalent sites of resistance and social bonding Following Sara Ahmed s rereading of happiness other authors such as Judith Butler Wendy Brown Jack Halberstam Lauren Berlant or Henry Giroux are mobilized to interrogate films memoirs and novels that deal with precarity alienation and inequality The monograph contributes to enlarging the archives of unhappiness by changing the focus from prescribed norms and happy endings to unruly practices and unhappy beginnings As the different contributors

show unhappiness precarity vulnerability or failure can be harnessed to illuminate ways of navigating the world and framing society that do not necessarily conform to the script of happiness whatever that means **Literary Readings of Billy Wilder** Georges-Claude Guilbert, 2009-03-26 Billy Wilder hailed by most as a great filmmaker often considered himself primarily as a writer Yet to this day no publisher had thought fit to release literary interpretations of his work Such an endeavor was clearly missing The idea of this book is to offer academic but non hermetic readings of nine of his most significant films informed by literary criticism Gender Studies semiotics Film Studies and the artistic sensibility of its contributors Literary Readings of Billy Wilder should please film students English students and Wilder fans alike **Script Development** Craig Batty, Stacy Taylor, 2021-02-16 This book offers the first international look at how script development is theorised and practiced Drawing on interviews case studies discourse analysis creative practices and industry experiences it brings together scholars and practitioners from around the world to offer critical insights into this core but often hidden aspect of screenwriting and screen production Chapters speculate and reflect upon how creative commercial and social practices in which ideas emotions people and personalities combine cohere and clash are shaped by the practicalities policies and rapid movements of the screen industry Comprising two parts the book first looks into script development from a theoretical perspective and second looks out from the practice to form practitioner led perspectives of script development With a rising interest in screenwriting and production studies and an increased appetite for practice based research the book offers a timely mapping of the terrain of script development providing rich foundations for both study and practice
