THE ARITHMETIC OF EQUATIONS

Section Review

Objectives

1. Translate word problems involving engineering into mathematical equations.
2. Interpret the solution of a word problem in the context of the problem.

Vocabulary

1. word problem

Part A: Completion

Read the problem and fill in the blank with the appropriate word or phrase.

1. The solution of a system of linear equations is the set of all values of x and y that satisfy both equations.
2. The solution of a system of linear equations is the set of all values of x and y that satisfy both equations.
3. The solution of a system of linear equations is the set of all values of x and y that satisfy both equations.
4. The solution of a system of linear equations is the set of all values of x and y that satisfy both equations.
5. The solution of a system of linear equations is the set of all values of x and y that satisfy both equations.

6. The solution of a system of linear equations is the set of all values of x and y that satisfy both equations.
7. The solution of a system of linear equations is the set of all values of x and y that satisfy both equations.

8. The solution of a system of linear equations is the set of all values of x and y that satisfy both equations.
9. The solution of a system of linear equations is the set of all values of x and y that satisfy both equations.

Part B: True or False

Write "True" or "False" in the blank next to each statement.
