advance copies of their articles to hundreds and sometimes thousands of journalists around the world on the condition that journalists agree not to report their stories until a common time several days later. When the embargo lifts, airwaves and newspaper pages are flooded with stories based on the journal's latest issue. In addition to divulging the realities behind this collusive practice, Kiernan offers an unprecedented exploration of the embargo's impact on public and academic knowledge of science and medical issues. He surveys twenty-five daily U.S. newspapers and relates his in-depth interviews with reporters to examine the inner workings of the embargo and how it structures our understanding of news about science. Kiernan ultimately argues that this system fosters pack journalism and creates an unhealthy shield against journalistic competition. The result is the uncritical reporting of science and medical news according to the dictates of a few key sources. Scientific Integrity Francis L. Macrina, 2014-07-22.
