Avail Erin O'Lunaigh, 2026-01-20 In Avail Erin O'Lunaigh's breathtaking debut poetry collection the young poet charts her life during and after its transformation by illness Avail features a long prose poem which titles the book and winds through sections of lineated often formal poems The prose poem comprises a series of lyric meditations on the image of the veil from religious and cultural veils to veils imbedded in idiom and metaphor to veiled women in art and classic films to veils drawn and parted by illness and death which slowly divulge the harrowing details of the poet's blood disorder Throughout allusions to classic film literature and art serve as the veils with

which the poet attempts to obscure the self estrangement and vulnerability her illness has induced insecurities which follow her long after her recovery In a poem about a break up set during her career as a jazz singer and against the backdrop of a 1930s screwball comedy she longs to shake life by the martini but stay self possessed to star in the movie of myself instead of playing second lead During a visit to Naples Mt Vesuvius becomes a Crawford eyebrow arched over the bay And in California after a trip to the Getty Villa she recalls Sontag s missive on allusion that no part of any work is new that all is reproduction By the end of the collection O Luanaigh has fashioned from the sum of these various allusions her own poetic identity unveiled in the poems themselves The Golden Lamp: Or, Sketches Upon the Historic Scenes, Truths and Characters of the Bible J. Meditations on the principal truths of religion and on the hidden and public life of our Lord Tobias Kirby (R.C. abp. of Ephesus.), 1892 **The Woman Who Pretended to Be Who She Was** Wendy Doniger, 2005 Many cultures have myths about self imitation stories about people who pretend to be someone else pretending to be them in effect masquerading as themselves This great theme in literature and in life tells us that people put on masks to discover who they really are under the masks they usually wear so that the mask reveals rather than conceals the self beneath the self In this book noted scholar of Hinduism and mythology Wendy Doniger offers a cross cultural exploration of the theme of self impersonation whose widespread occurrence argues for both its literary power and its human value The stories she considers range from ancient Indian literature through medieval European courtly literature and Shakespeare to Hollywood and Bollywood They illuminate a basic human way of negotiating reality illusion identity and authenticity not to mention memory amnesia and the process of aging Many of them involve marriage and adultery for tales of sexual betrayal cut to the heart of the crisis of identity These stories are extreme examples of what we common folk do unconsciously every day Few of us actually put on masks that replicate our faces but it is not uncommon for us to become travesties of ourselves particularly as we age and change We often slip carelessly across the permeable boundary between the un self conscious self indulgence of our most idiosyncratic mannerisms and the conscious attempt to give the people who know us personally or publicly the version of ourselves that they expect Myths of self imitation open up for us the possibility of multiple selves and the infinite regress of self discovery Drawing on a dizzying array of tales some fact some fiction **The Woman Who Pretended to Be Who She Was** is a fascinating and learned trip through centuries of culture guided by a scholar of incomparable wit and erudition **The Death of Truth** Steven Brill, 2024-06-04 How did we become a world where facts shared truths have lost their power to hold us together as a community as a country globally How have we allowed the proliferation of alternative facts hoaxes even conspiracy theories to destroy our trust in institutions leaders and legitimate experts Best selling journalist Steven Brill documents the forces and people from Silicon Valley to Madison Avenue to Moscow to Washington that have created and exploited this world of chaos and division and offers practical solutions for what we can do about it A precise description of the punishment cell we have built around our minds and the first few steps back towards light and air Timothy

Snyder Author of *On Tyranny* and Professor of History Yale University A seminal ground breaking documented and honest examination of two of the central dilemmas of our time what is truth and where to find it Bob Woodward associate editor at The Washington Post As the cofounder of NewsGuard a company that tracks online misinformation Steven Brill has observed the rise of fake news from a front row seat In *The Death of Truth* with startling often terrifying clarity he explains how we got here and how we can get back to a world where truth matters None of this conspiracy theories embraced expertise ridiculed empirical evidence ignored has happened by accident Brill takes us inside the decisions made by executives in Silicon Valley to code the algorithms embedded in their social media platforms to maximize profits by pushing divisive content He unravels the ingenious creation of automated advertising buying systems that reward that click baiting content and penalize reliable news publishers and describes how the use of these ad financed misinformation platforms by politicians hucksters and conspiracy theorists deceives ordinary citizens He documents how the most powerful adversaries of America have used American made social media and advertising tools against us with massive disinformation campaigns and how with the development of generative artificial intelligence everything could get exponentially worse unless we act The stakes are high for all of us including Brill himself whose company s role in exposing Russian disinformation operations resulted in a Russian agent targeting him and his family Crucially Brill lays out a series of provocative but realistic prescriptions for what we can do now to reverse course proposals certain to stir debate and even action that could curb the power of big tech to profit from division and chaos tamp down polarization and restore the trust necessary to bring us together
