*The Keys to Acting* Hugh O'gorman, 2021-07-13      **The 113 Keys to Acting** Hugh O'Gorman, 2007      **100 Acting Exercises for 8 - 18 Year Olds** Samantha Marsden, 2019-02-21 This book offers a comprehensive guide to teaching acting exercises that will unleash the inner creativity of students aged 8-18. Theories and techniques of some of the greatest theatre practitioners including Sanford Meisner, Constantin Stanislavski, Lee Strasberg and Uta Hagen provide a basis for Samantha Marsden's original exercises for students between these ages. You won't find Duck Duck Goose, Zap Zap Boing or any other traditional drama games in this book; instead, the craft of acting technique takes the limelight. These exercises have been tried and tested in the author's own classroom and are guaranteed to inspire, ignite imagination and encourage heartfelt performances. Focus points used in leading drama schools such as voice, movement, relaxation, character development and understanding text are recreated for a younger student. They are easy to follow and will be fun, challenging and immensely rewarding for teachers and students alike. The book features a foreword by Paul Roseby, CEO and Artistic Director of the National Youth Theatre.

**Acting Action** Hugh O'Gorman, 2021-06-07 What is it that we're doing when we're acting well? This is the question famously posed by Earle Gister, the legendary head of the acting department at Yale School of Drama from 1979 to 1999. In *Acting Action*, actor, director and teaching artist Hugh O'Gorman invites readers to explore the question in detail. Focusing on playing action, one of the essential components of acting passed on to renowned acting teachers Earle Gister and Lloyd Richards by Paul Mann, *Acting Action* is divided into two parts: context and practice. The first section provides a thorough examination of the theory behind the core elements of playing action. The second section presents a step-by-step rehearsal guide for actors to integrate playing action into their preparation process. *Acting Action* offers a foundation for how to get started and build the core of a performance. More precisely, it provides a practical guide for actors, directors and teachers in the technique of playing action, addressing a void in the world of actor training by illuminating what exactly to do in the moment-to-moment act of acting.

**The Four Principles** E. Kerr,2011-04

**My Character Wouldn't Do That** Donna Soto-Morettini,2022-02-10 Starting from the idea that the main hindrance to a great acting performance is self consciousness on the part of the performer My Character Wouldn't do That examines the ways in which some of our traditional and contemporary approaches to acting put us into a mind space that can encourage self consciousness Examining evidence from a range of contemporary cognitive sciences the book approaches acting and actor training in an entirely different way Based on the latest research into brain activity and human behaviour the book covers areas that standard acting texts do character emotion memory imagination making active choices but reconceives each of these elements through the lens of that contemporary research The book is the first to look closely at what contemporary research tells us about personality character and how environment shapes us how memory works and how actors can work with rather than against their memory in preparing for performance why actors must use different kinds of brain states and imagination in the various stages of preparation rehearsal and performance how actors can frame active choices in a way that refocuses the source of thought and action why actors should distinguish the stages of preparation and the kinds of thinking imagination that works at each stage
