

The background of the entire cover is a photograph of a man and a woman in period attire. The man, on the left, is wearing a dark blue naval officer's uniform with gold buttons and a white shirt with a high collar. He is looking down at the woman's hand. The woman, on the right, is wearing a vibrant red, long-sleeved dress with a low neckline and a full skirt. Her blonde hair is styled in an updo. They are standing in an ornate room with patterned wallpaper and a large window in the background.

Godey's Lady's Book ,1848 **The New Lady's Magazine** ,1786 **Book Notes Illustrated** ,1923 *Education of Women* M. Carey Thomas,2019-12-16 In *Education of Women* M Carey Thomas embarks on a vigorous intellectual exploration of women s education at the turn of the 20th century Written in a keenly persuasive and articulate style Thomas advocates for the equal educational opportunities for women intertwining empirical data with passionate rhetoric to challenge prevailing norms that limited female intellectual advancement This groundbreaking work situates itself within the broader context of the women s suffrage and progressive movements illuminating the connection between education and the quest for social equity while contextualizing the historical obstacles that inhibited women s academic pursuits M Carey Thomas was a prominent suffragist educator and the second president of Bryn Mawr College which profoundly shaped her perspective on women s roles in academia Her personal experiences particularly within the confines of a male dominated educational landscape inspired her fervent commitment to advancing women s rights and education Thomas s insights reflect not only her profound intellect but also her determination to foster an environment where women could thrive intellectually and socially Readers interested in gender studies educational reform and historical feminist narratives will find *Education of Women* a compelling and significant text This work is essential for understanding the historical context of women s education and serves as a powerful call to continue the fight for equality Thomas s articulate discourse remains relevant today making it a must read for anyone invested in social justice **A New English Dictionary on Historical Principles: part 1. Hebert,2013-03-12 This study re examines Morgan le Fay in early medieval and contemporary Arthurian sources arguing that she embodies the concerns of each era even as she defies social and gender expectations Hebert uses leFay as a lens to explore traditional ideas of femininity monstrosity resistance identity and social expectations for women and men alike **The Girl's Own Annual** ,1887 **The Educational Progress of Women** Thomas M. Smith,National Center for Education Statistics,1995 **Bachelors, Manhood, and the Novel, 1850-1925** Katherine V. Snyder,1999-09-02 Katherine Snyder s study explores the significance of the bachelor narrator a prevalent but little recognised figure in premodernist and modernist fiction by male authors including Hawthorne James Conrad Ford and Fitzgerald Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold

figures who by crossing the shifting permeable boundaries of bourgeois domesticity highlighted the limits of conventional masculinity The very marginality of the figure Snyder argues effects a critique of gendered norms of manhood while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man Bachelor figures made moreover an ideal narrative device for male authors who themselves occupied vexed cultural positions By attending to the gendered identities and relations at issue in these narratives Snyder s study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism

The Album, and Ladies' Weekly Gazette ,1826 T. P.'s Weekly Thomas Power O'Connor,Holbrook Jackson,1912 Public Medievalists, Racism, and Suffrage in the American Women's College Mary Dockray-Miller,2017-11-13 This study part of growing interest in the study of nineteenth century medievalism and Anglo Saxonism closely examines the intersections of race class and gender in the teaching of Anglo Saxon in the American women s colleges before World War I interrogating the ways that the positioning of Anglo Saxon as the historical core of the collegiate English curriculum also silently perpetuated mythologies about Manifest Destiny male superiority and the primacy of northern European ancestry in United States culture at large Analysis of college curricula and biographies of female professors demonstrates the ways that women used Anglo Saxon as a means to professional opportunity and political expression especially in the suffrage movement even as that legitimacy and respectability was freighted with largely unarticulated assumptions of racist and sexist privilege The study concludes by connecting this historical analysis with current charged discussions about the intersections of race class and gender on college campuses and throughout US culture
