Redding,Herbert J. Walberg,2008-02-01 published in co operation with The Center on Innovation Improvement As
subsequent chapters point out the No Child Left Behind Act NCLB requires states to provide assistance to districts in
improving the schools within their purview Of course the U S Constitution and federal laws leave the control of education
largely to the states and states have long provided support to school districts In return for federal monies however NCLB
requires states to provide such help under the statewide systems of support SSOS provision of the Act The purposes of this
Handbook are to survey the research related to statewide systems of support to present the experience and insights of
educational leaders in how such support can best be conducted and to derive actionable principles for improving schools It is
intended for use not only by the staff of the U S Department of Education sponsored Regional Centers that serve state
department staff but also by the staff of school districts and schools Also sponsored by the U S Department of Education the
Center on Innovation Improvement CII previously developed the Handbook on Restructuring and Substantial School
Improvement Walberg 2007 that became the basis of CII s technical assistance to Regional Centers on this topic CII made
available for downloading Power Point presentations and web based seminars webinars based on the previous Handbook CII
s intended audiences widely employed the previous Handbook on Restructuring and Substantial School Improvement and
auxiliary materials and found them useful in their technical assistance efforts to disseminate and encourage evidence based
ideas for restructuring and improving schools With advice from the U S Department of Education scholarly experts and
experienced educators in the Regional Centers state departments of education and school districts the CII staff concluded
that what it envisioned as the present Handbook would be similarly useful
