Star Wars Clone Episode Guide Wiki:

The Transmedia Franchise of Star Wars TV Dominic J. Nardi, Derek R. Sweet, 2020-11-11 While previous work on the Star Wars universe charts the Campbellian mythic arcs political representations and fan reactions associated with the films this volume takes a transmedial approach to the material recognizing that Star Wars TV projects interact with and relate to other Star Wars texts The chapters in this volume take as a basic premise that the televisual entrants into the Star Wars transmedia storyworld are both important texts in the history of popular culture and also key to understanding how the Star Wars franchise and thus industry wide transmedia storytelling strategies developed The book expands previous work to consider television studies and sharp cultural criticism together in an effort to bring both long running popular series long ignored texts and even toy commercials to bear on the franchise's complex history *100 Things Star Wars Fans Should Know & Do Before They Die* Dan Casey, 2018-05-01 As a Star Wars fan you've seen the movies from A New Hope to The Last Jedi and beyond And of course you've probably had a faux lightsaber battle or two pretending to be Luke Skywalker Rey or maybe Kylo Ren But can you name the seven actors who have portrayed Darth Vader Do you know how Ralph McQuarrie helped shape the world of Star Wars Are you familiar with Deak Starkiller Darth Plagueis or Drew Struzan Have you seen the infamous Star Wars Holiday Special *100 Things Star Wars Fans Should Know Do Before They Die* is the ultimate resource for true fans of the galaxy far far away In this revised and updated edition Dan Casey has collected every essential piece of Star Wars knowledge and trivia as well as must do activities and ranks them all from 1 to 100 providing an entertaining and easy to follow checklist for viewers old and new to progress on their way to fan superstardom **Robots That Kill** Judith A. Markowitz, 2019-05-01 This book describes real world killer robots using a blend of perspectives Overviews of technologies such as autonomy and artificial intelligence demonstrate how science enables these robots to be effective killers Incisive analyses of social controversies swirling around the design and use of killer robots reveal that science alone will not govern their future Among those disputes is whether fully autonomous robotic weapons should be banned Examinations of killers from the golem to Frankenstein's monster reveal that artificially created beings like them are precursors of real 21st century killer robots This book laces the death and destruction caused by all these killers with science and humor The seamless combination of these elements produces a deeper and richer understanding of the robots around us **Culture, Identities and Technology in the Star Wars Films** Carl Silvio, Tony M. Vinci, 2014-11-26 Released in May 1977 the original Star Wars movie inaugurated the age of the movie blockbuster It also redefined the use of cinematic special effects creating a new textual universe that now stretches through three decades two trilogies and generations of fascinated viewers The body of critical analysis that has developed from this epic focuses primarily on the Star Wars universe as a contemporary myth However like any fiction it must also be viewed and consequently analyzed as a product of the culture which created it The essays in this book analyze the Star Wars trilogies as a culturally and historically specific phenomenon Moving away from the

traditional myth based criticism of the films the essayists employ a cultural studies model to examine how this phenomenon intersects with social formations such as economics technology race and gender Critical approaches are varied and include political and economic analysis informed by feminism contemporary race theory Marxism new media studies and post humanism Among the topics covered are the connections between the trilogies and our own cultural landscape the problematic issues of race and gender and the thematic implications of Lucas presentation of technology
