Silva,2025-04-22 I was never the strongest nor the tallest But I always had something inside me something that told me I could be more From the streets of Bondy to the biggest stages in world football what guided me was the certainty that hard work trumps talent when talent doesn't work hard I am not a phenomenon by chance I am the result of sweat of sleepless nights thinking about how to improve of falling and getting up stronger than before Life has taught me that nothing is easy and that shortcuts often lead to places that aren't worth it I remember the times I trained until my muscles couldn't take it anymore when I sacrificed leisure time to pursue a bigger goal But I also learned that sacrifice is worth it when you have a purpose For me football was never just a game It is a passion a way to inspire others to believe that anything is possible I want you to believe this you are capable of amazing things It doesn't matter where you come from what matters is the determination of where you want to go Persist work hard and maintain your essence You can conquer the world but you will only be truly great if you conquer yourself **Football Disasters: The moments we will never forget** Caroline

Elwood-Stokes,2020-02-06 It seems that we can divide the world history of football related deaths into three periods The early period 1900-1959 contains from 0 to 3 tragedies per decade Deaths were very rare but were tremendously tragic when they happened Take for instance the very first incident occurring on the 5th of April in 1902 at Ibrox Stadium in Glasgow where Scotland played England in the British Home Championship At the time it was considered to be the most prestigious international tournament in the world and would therefore draw a large audience While the game was being played the newly built wooden West Stand broke under the weight of the excited crowd People fell several meters down and on top of

each other resulting in 26 people dying and 517 being injured Blame was put on the rain that had fallen the night before the game causing the wooden construction to become unstable Arena architects abandoned wood as material for higher audience facilities after this episode But what caused the other disasters [The Official History of the FIFA World Cup](#) FIFA
