Understanding the Borderline Mother Christine Ann Lawson, 2002-07 The first love in our lives is our mother Recognizing her face her voice the meaning of her moods and her facial expressions is crucial to survival Dr Christine Ann Lawson vividly describes how mothers who suffer from borderline personality disorder produce children who may flounder in life even as adults futilely struggling to reach the safety of a parental harbor unable to recognize that their borderline parent lacks a pier or even a discernible shore Four character profiles describe different symptom clusters that include the waif mother the hermit mother the queen mother and the witch Children of borderlines are at risk for developing this complex and devastating personality disorder themselves Dr Lawson s recommendations for prevention include empathic understanding of the borderline mother and early intervention with her

children to ground them in reality and counteract the often dangerous effects of living with a make believe mother Some readers may recognize their mothers as well as themselves in this book They will also find specific suggestions for creating healthier relationships Addressing the adult children of borderlines and the therapists who work with them Dr Lawson shows how to care for the waif without rescuing her to attend to the hermit without feeding her fear to love the queen without becoming her subject and to live with the witch without becoming her victim A Jason Aronson Book *The Veterans and Active Duty Military Psychotherapy Treatment Planner* Bret A. Perfecting Private Practice Joan Neehall-Davidson, 2004 In a readily accessible easy to read format this book presents useful hints suggestions anecdotes and lists that will help you to look within identify and ultimately achieve your personal and professional goals From getting started with the actual physical space that is your office to the incorporation and financial establishment of your practice to dealing with the most unexpected unpredictable clients and their expectations and to planning for the unexpected the answers are here The straightforward hands on approach makes reading simple the inclusion of anecdotes adds realism and interest the quick checks provide instant reminders and cues and the self disclosure questions aid in self understanding All of the suggestions are grounded in practice Some may be familiar to you already some may be novel and unexpected Sometimes however simple reminders or hints can be the most powerful and with that in mind this book was written in an attempt to demystify some of the confusion and or uncertainty surrounding the successful establishment and functioning of a private practice

The Critique of Regression Gregory S. Rizzolo, 2018-11-21 The Critique of Regression presents the most in depth critique of regression available in the psychoanalytic literature whilst presenting the first psychoanalytic theory of irreversible lifespan development The clinical implications are amply demonstrated in three chapter length psychoanalytic cases The most important implication is that when we revisit the past in a private memory or in an analytic session we remake it afresh in light of the present The analysis of the past is always in this sense an exploration of the present Gregory S Rizzolo demonstrates that where we think we see returns or regressions to past stages of the lifespan we in fact find the emergence of novel structures in subjective experience Rizzolo considers the work of human development to be a work of mourning in which we lose internalize and keep re working the residue of a past to which we never return The traditional notion of regression which supports the fantasy of a literal return operates as an intellectual defense against the mourning process To critique the concept is to address the defense and to confront the loss of past relationships and of past versions of selfhood inherent in development From the work of mourning emerge ever new configurations of desire defense and subjective meaning The task of analysis is to cultivate amidst the repetition of familiar patterns the potential for novelty at play in each moment This thought provoking work will interest new and experienced psychoanalytic clinicians alike who want to go beyond traditional theories of development to a contemporary look at how we develop inexorably across the lifespan

Where Did I Go Wrong? How Did I Miss the Signs? Dealing with Hostile Parenting & Parental Alienation Joan Kloth-Zanard, 2010-09-13 Where Did I Go Wrong How Did I Miss The Signs is a prevention and intervention resource tool for parents courts attorney s counselors agencies and anyone else who needs help with high conflict divorce and relationships From start to finish this book talks about divorce marriage hostile aggressive parenting during and after a divorce how to deal with this and help the children to thrive From cover to cover this book is filled with

information to help stop the snowball affect of high conflict divorce hostile aggressive parenting all of which leads to the psychological abuse of the children by destroying their relationship with one of their parents or another relative It is the hope that this book can help prevent this abuse from happening and help these families to move forward in a healthy positive and successful way EMDR Made Simple Jamie Marich,2011 Eye Movement Desensitization and Reprocessing EMDR has established itself as an evidence based psychotherapy for the treatment of trauma and other related mental health disorders Despite the numerous studies touting EMDR s efficacy it is still largely regarded as too complicated to understand a major factor in why many who have been trained in EMDR no longer use it EMDR Made Simple 4 Approaches to Using EMDR with Every Client offers a fresh approach to understanding conceptualizing and ultimately implementing EMDR into clinical settings
