A 21st Century Christian's Quest for Truth Lowell JK Davis, 2010-08-20 Any book that attempts to assert basic truth about the origins nature and relationship of humankind with the Earth and universe we live in is inherently controversial Throughout human history truth claims have been based on authority faith and observed evidence Each of these sources of truth have changed truth claims over time Only about 500 years ago any fool could observe that the earth was a flat surface

not a sphere spinning at about 700 miles per hour at the equator with a sun that traveled above the surface of the earth about every 24 hours 23 hrs and 56 min In a very short period of human history our evidence or observation based truth claims have expanded exponentially as we have advanced our unaided human observations Examples include space based instruments that transmit vast amounts of information about an unimaginably large universe atom smashers that provide knowledge of the smallest element or force within an unimaginably small atom seismographic instruments that can analyze and map deep inside the Earth glacial ice core analysis that tell us a lot about annual climates and major earth events on a year by year basis over hundreds of thousands of years in the past recent advances in radiocarbon and radiometric and other dating methods that provide a reliable chronology of Earth and plant and animal life over the past 4.65 billion years oceanographic vehicles that explore the extreme depths of the oceans that cover the majority of the earth's surface and instruments that allow humans to study the very basic sub microscopic elements DNA that make up plant and animal life This book does not claim to be a fully documented scientific or religious text It is based on one person's extensive research of authoritative sources Even research requires evaluation of sources and subsequent conclusions Thus this book is proposed as an editorial opinion based on one person's quest for truth in the 21st Century

Vincent Shelton,2014-10-29 The prophets of old warned that certain key end time prophecies wouldn't be revealed until the time of the end For centuries scholars have curiously wandered through a valley of endless supposition hoping to stumble upon a proper understanding of end time events Hence much of our teaching about the latter days is not strongly supported by scripture Well finally the time of the end has come Today we can scripturally prove the answers to questions like Will the Rapture of the Church occur before during or after The Great Tribulation Period Will the Beast really be a man Will the Door of Salvation still be open when the tribulation period ends Who or what are the two hundred million killer horsemen in John's vision Is our interpretation of end time prophecy emotionally obscured The scripturally sound answers to these questions will likely surprise you Focus On: 100 Most Popular Drama Films Based on Actual Events Wikipedia contributors, The New Heavens and Earth: Recreation or Renovation? Lee W. Brainard,2022-07-29 One of the most breathtaking prophecies in the Bible is the promise of the new heavens and earth In that glorious day the widespread effects of the fall and the curse will be undone Man will experience unbroken utopian blessing in his eternal home But how will the new heavens and earth come about Will the current heavens and earth cease to exist and be replaced by a second ex nihilo creation as many Bible teachers insist Or will the current earth be refurbished by earthquake and fire from heaven even as the last earth was refurbished by the flood In this volume I present several arguments such as historical precedent the character of God the eternality of the earth and the eternal nature of the kingdom established at the second coming which combine to make a formidable case that the new heavens and earth will be the current heavens and earth refurbished Precious Stones and Bedrock Truth Mark L.
