Parenting the Crisis Tracey Jensen,2018-03-28 Bad parenting is so often blamed for Britain s broken society manifesting in sites as diverse as the government reaction to the riots of 2011 popular entertainment like Supernanny and the discussion boards of Mumsnet This book examines how these pathologising ideas of failing chaotic and dysfunctional families are manufactured across media policy and public debate and how they create a powerful consensus that Britain is in the grip of a parent crisis It tracks how crisis talk around parenting has been used to police and discipline families who are considered to be morally deficient and socially irresponsible Most damagingly it has been used to justify increasingly punitive state policies towards families in the name of making bad parents more responsible Is the real crisis in our perceptions rather than reality This is essential reading for anyone engaged in policy and popular debate around parenting **42 Rules of Employee Engagement (2nd Edition)** Susan Stamm,2012-10 42Rules of Employee Engagement 2nd Edition was born

Parents Should Be Heard Daphne Nicholson

Bennett, 2025-08-05 For any parent or parent to be this book originally published in 1972 was intended to open new doors answering questions about themselves and their children and be illuminating to many others professionally concerned with parents. Many real life examples from the author's work demonstrate how parents who are encouraged to express their feelings through discussion in an unjudging atmosphere can better solve their problems and enjoy their children. Readers learn through the experience of these typical parents who overcame fears of expressing their often surprisingly complex feelings. They also share indirectly the results of greater understanding and better handling of practical problems such as the child who cannot sleep or runs away from home, the child with learning difficulties, living with mother in law, teenage rebellion, drug abuse, family upheaval and social tension. Physical symptoms of personal strain such as back and head aches may disappear. Examples of play techniques to help children directly with their emotional problems are also given. The author believes that parenthood is a natural opportunity for personal growth and enjoyment of life. Her philosophy is one of prevention even more than cure. Parents' questions turn out to be the questions of all people which left unheard and unanswered may lead to a multitude of social and personal ills. Conversely greater understanding as parents can bring easier relationships at work with friends and between husband and wife. The approach described often bridges a gap parents describe between knowing what to do and how to do it. This book is a re issue originally published in 1972. The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re publication.

Biosocial Theories of Crime Kevin M. Beaver, 2017-07-05

Biosocial criminology is an emerging perspective that highlights the interdependence between genetic and environmental factors in the etiology of antisocial behaviors. However given that biosocial criminology has only recently gained traction among criminologists there has not been any attempt to compile some of the classic articles on this topic. Beaver and Walsh's edited volume addresses this gap in the literature by identifying some of the most influential biosocial criminological articles and including them in a single resource. The articles covered in this volume examine the connection between genetics and crime, evolutionary psychology and crime, and neuroscience and crime. This volume will be a valuable resource for anyone interested in understanding the causes of crime from a biosocial criminological perspective.
