Rechargeable 3.7v
650mAh LiPo Battery

USB Charging Cable

4 Replacement Blades

Battery door includes security screw to prevent child access to LiPo battery. Users over 14 years of age may remove screw from door for easier access.

Remove all packaging attachments before giving the toy to a child.

Not suitable for children under 3 years due to small parts that could be swallowed.

Conforms to product safety standards ASTM F963.

Keep instructions for future reference. Do not discard.

BC

CAUTION: Consumers should confirm the lawful use of this product with local authorities as laws may vary.

This device complies with PART 15 of the FCC Rules. Operation is subject to the following two conditions. (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna - Increase the separation between the equipment and receiver - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected - Consult the dealer or an experienced radio/TV technician for help.

How to Build a Quadcopter Drone Duncan Still, 2015-09-08 Interested in owning a multicopter or thinking of building one? This book shows you how to build a fully working quadcopter which can provide you with hours of enjoyment flying it. Building a multicopter is simpler than you might imagine and gives you a real sense of achievement. Whether you have never flown a multicopter before or are an enthusiast wishing to build your first one, this book will help you to build a radio controlled quadcopter that can be used for filming, racing or just having fun. There are complete instructions for two different sized quadcopters: the first is a 25cm wide version which can be used for racing and the other is 45cm wide and ideal as a camera platform. An FPV camera can be mounted to either quadcopter. It includes a complete guide to tools, materials and components required and where to find them, along with step by step illustrated instructions for assembly plus a simple guide to multicopter flight principles and tips for your first flight.

The Complete Guide to Drones Extended 2nd Edition Adam Juniper, 2018-05-03 If you think you need a boarding pass to fly, you're really missing out. Today, drones are everywhere. From film studios to farms, they're in the hands of photographers, commercial surveyors and racers alike. This fully illustrated book explains how drones developed, where they're going and which one you should choose. It even includes complete instructions to build both a simple drone and a super fast FPV racer yourself. Whether you're flying indoors or out, buying or building, this book covers everything. Understand the Jargon Flying has a lot of unfamiliar terminology, but this book will make it easy to master. Business or Pleasure Every type of multicopter you might want is introduced, including explanations of which is best suited for what role. Get the Best Pictures This edition includes an extended guide to the tech and composition tricks you can use to make your pictures stand out of the pack. Get the Best Video A new shot guide shows you how to get the most engaging aerial video, whatever your drone. Be a Winning FPV Racer There are two complete step by step instructions for building your own drones: inside an FPV racer or a surprisingly cheap wooden drone, both great projects. Following the worldwide success of the first edition, which has been translated into numerous languages, this second edition is not only fully updated to keep pace with the laws and technology, but also extended to thoroughly cover the fast growing new sport of FPV drone racing, while still including a comprehensive guide to learning to fly any drone.
