empire in the Age of Revolution and shows how three major forces undermined the country's competitive position as an Atlantic commercial power. The first was war especially war at sea against France's most consistent enemy and commercial rival in the eighteenth century Great Britain. A series of colonial wars from the Seven Years War and the War of American Independence to the Revolutionary and Napoleonic Wars did much to drive France out of the North Atlantic. The second was anti-slavery and the rise of a new moral conscience which challenged the right of Europeans to own slaves or to sacrifice the freedom of others to pursue national economic advantage. The third was the French Revolution itself which not only raised French hopes of achieving the Rights of Man for its own citizens but also sowed the seeds of insurrection in the slave societies of the New World leading to the loss of Saint Domingue and the creation of the first black republic in Haiti at the beginning of the nineteenth century. This proved critical to the economy of the French Caribbean driving both colons and slaves from Saint Domingue to seek shelter across the Atlantic world and leaving a bitter legacy in the French Caribbean. It has also created an uneasy memory of the slave trade in French ports like Nantes, La Rochelle and Bordeaux and has left an indelible mark on race relations in France today.

The Gospel of John Marrant Alphonso F. Saville IV, 2024-07-26

The Reverend John Marrant 1755-91 was North America's first Black ordained minister and one of America's earliest Black authors and preachers. In *The Gospel of John Marrant* Alphonso F. Saville IV examines how Protestantism and West African indigenous religious practices deeply informed his life and ministry. Saville follows Marrant from his time evangelizing the Cherokee in Georgia to meeting with Black Freemasons in Boston to engaging with diasporic communities along the Eastern Seaboard and in England. Using the Black folk magic tradition of conjure as a lens for understanding Marrant's religious imagination, Saville outlines the importance of African religious and cultural themes, symbols, and cosmologies in the biblical interpretation and ritual culture of early Black North American Christian communities. Marrant's life and work, Saville contends, reveal the diverse religious cultures that contributed to the formation of African American Christianity and its evolution into a prominent institution during the colonial and early history of the United States. In so doing, he demonstrates the need to recenter both religion and Africa in the study of African American cultural and intellectual history.

Life-Study of Mark Witness Lee, 1985-05-01

In the Lord's recovery during the past five hundred years, the church's knowledge of the Lord and His truth has been continually progressing. This monumental and classical work by Brother Witness Lee builds upon and is a further development of all that the Lord has revealed to His church in the past centuries. It is filled with the revelation concerning the processed Triune God, the living Christ, the life-giving Spirit, the experience of life, and the definition and practice of the church. In this set, Brother Lee has kept three basic principles that should rule and govern every believer in their interpretation, development, and expounding of the truths contained in the Scriptures. The first principle is that of the Triune God dispensing Himself into His chosen and redeemed people; the second principle is that we should interpret, develop, and expound the truths contained in the Bible with Christ for the church; and the third governing principle is Christ, the Spirit.

life and the church No other study or exposition of the New Testament conveys the life nourishment or ushers the reader into the divine revelation of God's holy Word according to His New Testament economy as this one does *The Body in Francophone Literature* El Hadji Malick Ndiaye, Moussa Sow, 2016-05-24 Much of Francophone literature is a response to an elaborate discourse that served to bolster colonial French notions of national grandeur and to justify expansion of French territories overseas A form of colonial exoticism saw the colonized subject as a physical cultural aesthetic and even sexual singularity Francophone writers sought to rehabilitate the status of non Western peoples who through the use of anthropometric techniques had been racially classified as inferior or primitive Drawing on various Francophone texts this collection of new essays offers a compelling study of the literary body both corporeal and figurative Topics include the embodiment of diasporic identity the body politic in prison writing women's bodies and the body's expression of trauma inflicted by genocidal violence **Postmodern Tales of Slavery in the Americas** Timothy J. Cox, 2014-01-21 Unlike 19th century slave narratives many recent novel like texts about slavery deploy ironic narrative strategies innovative structural features and playful cruelty This study analyzes the postmodern aesthetics common to seven tales of slavery from the United States Martinique and Guadeloupe Cuba and Colombia from authors including Alejo Carpentier Miguel Barnet Toni Morrison and Charles Johnson *Text Only Holy Bible Recovery Version* Living Stream Ministry, 1999-02-01 Throughout the centuries translations of the Bible have steadily improved In general each new translation inherits from previous ones and opens the way for later ones While a new translation derives help from its predecessors it should go further The Recovery Version of the New Testament following the precedent set by the major authoritative English versions and taking these versions as reference not only incorporates lessons learned from an examination of others practices but also attempts to avoid biases and inaccurate judgments This version frequently guided by other versions attempts to provide the best utterance for the revelation in the divine Word that it may be expressed in the English language with the greatest accuracy **Sacral Revolutions** Gottfried Heuer, 2013-12-16 *Sacral Revolutions* is a unique project reflecting the contribution that Andrew Samuels has made to the general field of psychoanalysis and Jungian analysis in both clinical and academic contexts Gottfried Heuer has brought together an international array of authors friends and colleagues of Samuels to honour his 60th Birthday As a result the collection provides a creative and cutting edge overview of a fragmented field The chapters demonstrate the profound sense of social responsibility of these analysts and academics whose concerns include the mysteries and hidden meanings in social and political life This open and engaging volume includes a previously unpublished interview with C G Jung adding to its usefulness as an essential companion for academics analysts therapists and students
