The Wealth of History of the Small African Twin-Island State São Tomé and Príncipe Gerhard Seibert, 2024-01-23 The twin island state of São Tomé and Príncipe located in the Gulf of Guinea is the second smallest African country after the Seychelles. The essays of this collection highlight crucial periods and important events in the country's varied and eventful history which spans more than 500 years. Portugal colonised the islands twice in significantly different economic and historical contexts: first in the sixteenth century during its maritime expansion and secondly in the latter half of the nineteenth century at the beginning of the colonisation of Africa by European powers. In these two periods the small islands played a pioneering role in the economic history of sugar and cocoa respectively. Following independence in 1975, the country's economic development has fallen far short of expectations and consequently its dependence on foreign aid has persisted. Nevertheless, external observers have considered the archipelago of 225 000 inhabitants to be a model of parliamentary democracy in Africa.

*From the Galleons to the Highlands* Alex Borucki, David Eltis, David Wheat, 2020-05-01 The essays in this book demonstrate the importance of transatlantic and intra American slave trafficking in the development of colonial Spanish America, highlighting the Spanish colonies previously underestimated significance within the broader history of the slave trade. Spanish America received African captives not only directly via the transatlantic slave trade but also from slave markets in the Portuguese, English, Dutch, French and Danish Americas, ultimately absorbing more enslaved Africans than any other imperial jurisdiction in the Americas except Brazil. The contributors focus on the histories of slave trafficking to within and across highly diverse regions of Spanish America throughout the entire colonial period, with themes ranging from the earliest known transatlantic slaving voyages during the sixteenth century to the evolution of antislavery efforts within the Spanish empire. Students and scholars will find the comprehensive study and analysis in *From the Galleons to the Highlands* invaluable in examining the study of the slave trade to colonial Spanish America. Understanding Latin America demands dialogue, deep exploration and frank discussion of key topics. Founded by Lyman L. Johnson in 1992 and edited since 2013 by Kris Lane, the *Diálogos* Series focuses on innovative scholarship in Latin American history and related fields. The series, the most successful of its type, includes specialist works accessible to a wide readership and a variety of thematic titles, all ideally suited for classroom adoption by university and college teachers.

**Commercial Agriculture, the Slave Trade and Slavery in Atlantic Africa** Robin Law, Suzanne Schwarz, Silke Strickrodt, 2013 Re-envisages what we know about African political economies through its examination of one of the key questions in colonial and African history: that of commercial agriculture and its relationship to slavery. This book considers commercial agriculture in Africa in relation to the transatlantic slave trade and the institution of slavery within Africa itself from the beginnings of European maritime trade in the fifteenth century to the early stages of colonial rule in the twentieth century. From the outset, the export of agricultural produce from Africa represented a potential alternative to the slave trade, although the predominant trend was to transport

enslaved Africans to the Americas to cultivate crops there was recurrent interest in the possibility of establishing plantations in Africa to produce such crops or to purchase them from independent African producers This idea gained greater currency in the context of the movement for the abolition of the slave trade from the late eighteenth century onwards when the promotion of commercial agriculture in Africa was seen as a means of suppressing the slave trade At the same time the slave trade itself stimulated commercial agriculture in Africa to supply provisions for slave ships in the Middle Passage

Commercial agriculture was also linked to slavery within Africa since slaves were widely employed there in agricultural production Although Abolitionists hoped that production of export crops in Africa would be based on free labour in practice it often employed enslaved labour so that slavery in Africa persisted into the colonial period Robin Law is Emeritus Professor of African History University of Stirling Suzanne Schwarz is Professor of History University of Worcester Silke Strickrodt is Visiting Research Fellow at the Department of African Studies and Anthropology University of Birmingham
