The Clinical Application Of Shang Han Formulae:

The Clinical Application of Shang Han Lun Formulas Rui-chun Chen, Li Mei, 2009 The Shang Han Lun is widely regarded as one of the most important book in Chinese medicine yet it is also considered the most difficult to master This title presents case studies organized around the use of nearly 50 classical formulas followed by other case studies from the author's extensive clinical experience CLINICAL APPLICATION OF SHANG HAN LUN ANGIE YOUNG. KIM, 2022 **Discussion**

of Cold Damage (Shang Han Lun) Guohui Liu, 2015-11-21 A major new translation of the Chinese classic Shang Han Lun by scholar and medical doctor Guohui Liu makes this foundational text fully accessible to English speaking clinicians for the first time Extensive study and research underpins the translation the author's understanding of both classical and modern Chinese enables him to interpret fully the ancient work within the theory of Chinese medicine An extensive commentary explains the translation the difficulties with the text how it has been subsequently translated and expands on the theory laid out in the original text to reach an understanding that can be applied in the clinic for diagnosis and treatment The value of this classic text lies primarily in its establishment of a basic framework for differentiation and treatment but it also presents 112 formulas and 88 medicinal substances which are commonly applied in clinical work for various conditions In this edition the 112 formulas are fully explained in the context of the clinical experiences of well known ancient and modern doctors and they are also laid out in two appendices cross referenced to the text 伤寒论 Zhongjing Zhang, Robin

Marchmont, 2008 Shang Han Lun was written in approx 200 AD and remains a seminal text in Chinese medicine literature and is mandatory study in all accredited courses of Chinese medicine today It analyses the aetiology and pathogenesis of acute upper respiratory tract infections the common cold influenza bronchitis asthma and describes the many permutations as well as subsequent complications It is not just a study of coughs and colds but lays the groundwork for Chinese medical theory and its strategies of treatment It also explains the consequences of incorrect treatment and discusses how the omission or addition of even one herb to a formula can affect its efficacy This is the book that makes understanding a complex classic text easy Greta Young benefits the reader with her years of expertise in studying and lecturing in the classics and guides us through the myriad clauses elucidating their meaning citing points of discussion from various sources and illustrating their application with modifications and case studies Robin Marchmont has translated each clause in a way which is faithful to the original Chinese whilst still making the meaning accessible to the English speaker The explanations and discussions use clear English in a free flowing lecturing style which holds the reader's interest Each chapter or section is introduced with an overview key points are highlighted and summarised at the end and in addition both Ancient Applications and Modern Applications are described The objective is to make it interesting readable and of practical clinical significance to today's practitioners **Essentials of Chinese Materia Medica and Medical Formulas** Shengyan Xi, Yüewen

Essentials of Chinese Medicine Zhanwen Liu, 2011-03-08 The Essentials of Chinese Medicine is a text book intended for international students who wish to gain a basic understanding of Chinese Medicine CM at the university level. The idea of writing such a text was originated from the Sino American Consortium for the Advancement of Chinese Medicine SACACM which was founded in February 2000. In 1995 the British Hong Kong Administration set up a Preparatory Committee for the Development of Chinese Medicine to look into ways of bringing Chinese medical practice and herbal trade under proper control and regulation. After the reunification of Hong Kong with mainland China in 1997 the Government of the Hong Kong Special Administrative Region continued the efforts to uplift the practice of CM to a fully professional level through legislation. To help bring up a new generation of professional CM practitioners the Hong Kong Baptist University HKBU obtained approval from the Government's university funding authority to develop a School of Chinese Medicine to prepare students who will meet the future professional requirements through public examinations. In order to establish itself quickly as a rigorous provider of university level CM education HKBU sought alliance with eight major CM universities in the Chinese Mainland and one US university which was interested in developing CM education within its medical college. As a result the Consortium known as SACACM was formed with ten founding institutions from Beijing Shanghai Nanjing Shandong Guangzhou Chengdu Heilongjiang Hong Kong and the United States.
