Triglyceride length has an effect on the amount of weight the sensor spring has to carry especially during exhalation, therefore on the front and up (8).

Shopper stress levels also had an effect on customer service ratings.

**NOTES:** Whenever stopper strap length is changed, track tension must be checked.

**NOTE:** Decreasing the stopper strap length may reduce comfort. If too much weight transfer is felt, try to correct it by adjusting the coupling blocks first. Always install stopper strap full as close as possible to the lower shaft.

When operating the snowmobile in deep snow, it may be necessary to vary proper stow length and/or riding position, to change the angle at which the track rides on the snow. Operator's familiarity with the various adjustments as well as snow conditions will denote the most efficient combination.

Generally, a longer message string setting gives better performance, as shown above, but it has its drawbacks.
