Department of State Publication ,1948 The Biographic Register ,1969 Cultures of Conflict Resolution in Early Modern Europe Stephen Cummins,Laura Kounine,2017-05-15 Disputes discord and reconciliation were fundamental parts of the fabric of communal living in early modern Europe This edited volume presents essays on the cultural codes of conflict and its resolution in this period under three broad themes peacemaking as practice the nature of mediation and arbitration and the role of criminal law in conflicts Through an exploration of conflict and peacemaking this volume provides innovative accounts of state formation community and religion in the early modern period *Recovery from schizophrenia* Kim Hopper,2007 *Biographic Register of the Department of State ...* United States. Department of State,1966 *Legalism* Georgy Kantor,Tom Lambert,Hannah Skoda,2017-12-08 In this volume ownership is defined as the simple fact of being able to describe something as mine or yours and property is distinguished as the discursive field which allows the articulation of attendant rights relationships and obligations Property is often articulated through legalism as a way of thinking that appeals to rules and to generalizing concepts as a way of understanding responding to and managing the world around one An Aristotelian perspective suggests that ownership is the natural state of things and a prerequisite of a true sense of self An alternative perspective from legal theory puts law at the heart of the origins of property However both these points of view are problematic in a wider context the latter because it rests heavily on Roman law Anthropological and historical studies enable us to interrogate these assumptions The articles here ranging from Roman provinces to modern day piracy in Somalia address questions such as How are legal property regimes intertwined with economic moral ethical and political prerogatives How far do the assumptions of the western philosophical tradition explain property and ownership in other societies Is the bundle of rights a useful way to think about property How does legalism negotiate property relationships and interests between communities and individuals How does the legalism of property respond to the temporalities and materialities of the objects owned How are property regimes managed by states and what kinds of conflicts are thus generated Property and

ownership cannot be reduced to natural rights nor do they straightforwardly reflect power relations the rules through which property is articulated tend to be conceptually subtle As the fourth volume in the Legalism series this collection draws on common themes that run throughout the first three volumes Legalism Anthropology and History Legalism Community and Justice and Legalism Rules and Categories consolidating them in a framework that suggests a new approach to legal concepts Business India ,2010-04 Gravity , *Cross Reference Directory* ,1981 Transcript of Enrollment Books
