TV Guide, 1990 **The Invisible Hand in Popular Culture** Paul A. Cantor, 2012-11-30 Analyzes how ideas about economics and political philosophy find their way into everything from Star Trek to Malcolm in the Middle Wall Street Journal Popular culture often champions freedom as the fundamentally American way of life and celebrates the virtues of independence and self reliance But film and television have also explored the tension between freedom and other core values such as order and political stability What may look like healthy productive and creative freedom from one point of view may look like chaos anarchy and a source of destructive conflict from another Film and television continually pose the question Can Americans deal with their problems on their own or must they rely on political elites to manage their lives In this groundbreaking work Paul A Cantor whose previous book Gilligan Unbound was named one of the best nonfiction books of the year by the Los Angeles Times explores the ways in which television shows such as Star Trek The X Files South Park and Deadwood and films such as The Aviator and Mars Attacks have portrayed both top down and bottom up models of order Drawing on the works of John Locke Adam Smith Alexis de Tocqueville and other proponents of freedom Cantor contrasts the classical liberal vision of America particularly its emphasis on the virtues of spontaneous order with the Marxist understanding of the culture industry and the Hobbesian model of absolute state control The Invisible Hand in Popular Culture concludes with a discussion of the impact of 9 11 on film and television and the new anxieties emerging in contemporary alien invasion narratives the fear of a global technocracy that seeks to destroy the nuclear family religious faith local government and other traditional bulwarks against the absolute state TV Guide Film & Video Companion, 2004
