Twenty-First Century Jihad

Elisabeth Kendall, Ewan Stein, 2015-06-04 The term jihad has come to be used as a byword for fanaticism and Islam s allegedly implacable hostility towards the West But like other religious and political concepts jihad has multiple resonances and associations its meaning shifting over time and from place to place Jihad

has referred to movements of internal reform spiritual struggle and self defence as much as to holy war And among Muslim intellectuals the meaning and significance of jihad remain subject to debate and controversy With this in mind Twenty First Century Jihad examines the ways in which the concept of jihad has changed from its roots in the Qur an to its usage in current debate This book explores familiar modern political angles and touches on far less commonly analysed instances of jihad incorporating issues of law society literature and military action As this key concept is ever more important for international politics and security studies Twenty First Century Jihad contains vital analysis for those researching the role of religion in the modern world

Notable Americans of Czechoslovak Ancestry in Arts and Letters and in Education Miloslav Rechcigl Jr., 2021-11-02 As pointed out in my last two publications no comprehensive study has been undertaken about the American Learned Men and Women with Czechoslovak roots The aim of this work is to correct this glaring deficiency with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Whereas in the two mentioned monographs the emphasis has been on scholars and social and natural scientists and men and women in medicine applied sciences and engineering respectively the present compendium deals with notable Americans of Czechoslovak ancestry in arts and letters and in education With respect to women although most professional fields were closed to them through much of the nineteenth century the area of arts and letters was opened to them as noted earlier and as this compendium authenticates

21st-Century TV Dramas Amy M. Damico, Sara E. Quay, 2016-02-12 In its exploration of some of the most influential popular or critically acclaimed television dramas since the year 2000 this book documents how modern television dramas reflect our society through their complex narratives about prevailing economic political security and social issues Television dramas have changed since the turn of the 21st century for the good many would say as a result of changes in technology the rise of cable networks and increased creative freedom This book approaches the new golden age of television dramas by examining the programs that define the first 15 years of the new century through their complex narratives high production value star power popularity and enthusiastic fan culture After an introduction that sets the stage for the book's content thematic sections present concise chapters that explore key connections between television dramas and elements of 21st century culture The authors explore Downton Abbey as a distraction from contemporary class struggles patriarchy and the past in Game of Thrones and Mad Men and portrayals of the dark hero protagonist in The Sopranos Dexter and Breaking Bad as a few examples of the book's coverage With its multidisciplinary perspectives on a variety of themes terrorism race class gender family dynamics and sociopolitical and socioeconomic topics this book will be relevant across the social sciences and cultural and media studies courses

Arabs and Muslims in the Media Evelyn Alsultany, 2012-08-20 After 9 11 there was an increase in both the incidence of hate crimes and government policies that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U S media Arabs and Muslims in the Media examines this

paradox and investigates the increase of sympathetic images of the enemy during the War on Terror Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one what she refers to as simplified complex representations This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist then the storyline also includes a positive representation of an Arab Muslim Arab American or Muslim American to offset the potential stereotype Analyzing how TV dramas such as *The Practice* *24* *Law and Order* *NYPD Blue* and *Sleeper Cell* news reporting and non profit advertising have represented Arabs Muslims Arab Americans and Muslim Americans during the War on Terror this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality
