Inside the Cuban Revolution Julia Sweig, 2002 Julia Sweig shatters the mythology surrounding the Cuban Revolution in a compelling revisionist history that reconsiders the revolutionary roles of Fidel Castro and Che Guevara and restores to a central position the leadership of the Cuban urban underground the Llano. Granted unprecedented access to the classified records of Castro's 26th of July Movement's underground operatives the only scholar inside or outside of Cuba allowed access to the complete collection in the Cuban Council of State's Office of Historic Affairs she details the ideological political and strategic debates between Castro's mountain-based guerrilla movement and the urban revolutionaries in Havana Santiago and other cities. In a close study of the fifteen months from November 1956 to July 1958 when the urban underground leadership was dominant Sweig examines the debate between the two groups over whether to wage guerrilla warfare in the countryside or armed insurrection in the cities and is the first to document the extent of Castro's cooperation with the Llano. She unveils the essential role of the urban underground led by such figures as Frank País Armando Hart Haydée Santamaría Enrique Oltuski and Faustino Pérez in controlling critical decisions on tactics strategy allocation of resources and relations with opposition forces political parties Cuban exiles even the United States contradicting the standard view of Castro as the primary decision maker during the revolution. In revealing the true relationship between Castro and the urban underground Sweig redefines the history of the Cuban Revolution offering guideposts for understanding Cuban politics in the 1960s and raising intriguing questions for the future transition of power in Cuba.

Chicorel Index to Poetry in Anthologies and Collections in Print Marietta Chicorel, 1975 Thank You for Not Reading Dubravka Ugrešić, 2003 In this collection of acerbic essays Ugrešić dissects the nature of the contemporary book industry which she argues is so infected with the need to create and promote literature that will appeal to the masses literally to everyone that if Thomas Mann were writing nowadays his books wouldn't even be published in the U.S. because they're not sexy enough. A playful and biting critique Ugrešić's essays hit on all of the major aspects of publishing agents subagents and scouts supermarket like bookstores Joan Collins book fairs that have little to do with books authors promoted because of sex appeal instead of merit and editors trying to look like writers by having their photograph taken against a background of bookshelves. Thanks to cultural influences such as Oprah The Today Show and Kelly Ripa best seller lists have become just a modern form of socialist realism a manifestation of a society that generally ignores literature in favor of the next big thing.

The Descent of Love Bert Bender, 2015-11-16 Upon its publication in 1871 Charles Darwin's *The Descent of Man and Selection in Relation to Sex* sent shock waves through the scientific community and the public at large In an original and persuasive study Bert Bender demonstrates that it is this treatise on sexual selection rather than any of Darwin's earlier works on evolution that provoked the most immediate and vigorous response from American fiction writers These authors embraced and incorporated Darwin's theories insights and language creating an increasingly dark and violent view of sexual love in American realist literature In *The Descent of Love* Bender carefully rereads the works of William Dean Howells Henry James Elizabeth Stuart Phelps Sarah Orne Jewett Kate Chopin Harold Frederic Charles W Chesnutt Edith Wharton and Ernest Hemingway teasing from them a startling but utterly convincing preoccupation with questions of sexual selection Competing for readership as novelists who best grasped the real nature of human love these writers also participated in a heated social debate over racial and sexual differences and the nature of sex itself Influenced more by *The Descent of Man* than by *The Origin of Species* Bender's novelists built upon Darwin's anthropological and zoological materials to anatomize their characters' courtship behavior returning consistently to concerns with physical beauty natural dominance and the power to select a mate Bringing the resources of the history of science and intellectual history to this the first full length study of the impact of Darwin's theories in American literature Bender revises accepted
