Van Slyke, 1967 *The China White Paper* Stati Uniti d'America. : Department of State, 1967 **World War II and the Cold War** Martin J. Medhurst, 2018-09-01 This volume examines crucial moments in the rhetoric of the Cold War beginning with an exploration of American neutrality and the debate over entering World War II Other topics include the long distance debate carried on over international radio between Hitler and Franklin D Roosevelt understanding and interpreting World War II propaganda domestic radio following the war and the use of Abraham Lincoln narratives as vehicles for American propaganda the influence of foreign policy agents Dean Acheson Paul Nitze and George Kennan and the rhetoric of former presidents John F Kennedy and Ronald Reagan Ultimately this volume offers a broad based look at the rhetoric framing the Cold War and in doing so offers insight into the political climate of today

Compendium of Material on the Ouster of General MacArthur and the Far East Situation, 1951 *The CIA and Third Force Movements in China during the Early Cold War* Roger B. Jeans, 2017-11-27 When the Chinese Communists defeated the Chinese Nationalists and occupied the mainland in 1949 1950 U S policymakers were confronted with a dilemma Disgusted by the corruption and more importantly failure of Chiang Kai shek s Nationalist armies and party and repelled by the Communists revolutionary actions and violent class warfare in the early 1950s the U S government placed its hopes in a Chinese third force While the U S State Department reported on third forces the CIA launched a two prong effort to actively support these groups with money advisors and arms In Japan Okinawa and Saipan the agency trained third force troops at CIA bases The Chinese commander of these soldiers was former high ranking Nationalist General Cai Wenzhi He and his colleagues organized a political group the Free China Movement His troops received parachute training as well as other types of combat and intelligence instruction at agency bases Subsequently several missions were dispatched to Manchuria the Korean War was raging then and South China All were failures and the Chinese third force agents were killed or imprisoned With the end of the Korean War the Americans terminated this armed third force movement with the Nationalists on Taiwan taking in some of its soldiers while others moved to Hong Kong The Americans flew Cai to Washington where he took a job with the Department of Defense The second prong of the CIA s effort was in Hong Kong The agency financially supported and advised the creation of a third force organization called the Fighting League for Chinese Freedom and

Democracy It also funded several third force periodicals Created in 1951 and 1952 in 1953 and 1954 the CIA ended its financial support As a consequence of this as well as factionalism within the group in 1954 the League collapsed and its leaders scattered to the four winds At the end even the term third force was discredited and replaced by new force Finally in the early 1950s the CIA backed as a third force candidate a Vietnamese general With his assassination in May 1955 however that effort also came to naught

The Path to Vietnam Andrew J. Rotter,2018-08-06 What path led Americans to Vietnam Why and how did the United States become involved in this conflict Drawing on materials from published and unpublished sources in America and Great Britain historian Andrew Rotter uncovers and analyzes the surprisingly complex reasons for America s fateful decision to provide economic and military aid to the nations of Southeast Asia in May 1950

China between Peace and War Victor Cheng,2023-11-30 In *China between Peace and War* Victor S C Cheng explores the gripping history of peace talks and international negotiations from 1945 to 1947 that helped determine the shape of the Chinese Civil War The book focuses on the efforts of the two belligerent parties the Chinese Nationalists or Guomindang and the Communists to achieve an enduring peace It presents previously unexplored major elements of the peace talks ambiguous treaties package deals and short term solutions It identifies the burning challenges that confronted attempts at peacemaking including the two warring parties high risk decision making styles and the temptation to veto agreements and resume fighting Cheng argues against popular notions that differences between the two belligerents in the Chinese Civil War were irreconcilable that the failure of the peace talks was predetermined and that the US government mediators needed to remain neutral Because the actions around the negotiating table occurred in a developing theatre of war Cheng also explores the military decision making of the opposing sides as well as the conflicts that ultimately plunged China into the world s largest military engagement of the seven plus decades since World War II *China between Peace and War* highlights the contradictory role of political leaders who micromanaged the military including their struggle to connect political objectives and military power their rhetorical use of the decisive war concept and their pursuit of radical military political goals at the expense of a negotiated peace

War in the American Pacific and East Asia, 1941-1972 Hal M. Friedman,2019-02-22 Before 1940 the Japanese empire stood as the greatest single threat to the American presence in the Pacific and East Asia To a lesser degree the formerly hegemonic colonial powers of Britain France and the Netherlands still controlled portions of the region At the same time subjugated peoples in East Asia and Southeast Asia struggled to throw off colonialism By the late 1930s the competition exploded into armed conflict Japan looked like the early victor but the United States eventually established itself as the hegemonic power in the Pacific Basin by 1945 Yet when it comes to the American movement out into the Pacific there is more to the story that has yet to be revealed In *War in the American Pacific and East Asia 1941-1972* editor Hal Friedman brings together nine essays that explore lesser known aspects and consequences of America s military expansion into the Pacific during and after World War II This study explores how the United States won the Pacific War

against Japan and how it sought to secure that victory in the decades that followed ensure it never endured another Pearl Harbor style defeat and saw the Pacific fulfill a Manifest Destiny like role as an American frontier projected toward East Asia. The collection explores the role of the US military in the Pacific Basin in different ways by presenting essays on interservice rivalry and military advising as well as unique topics that are new to military history such as the investigations of strategic communications, military public relations, institutional cultures of elite forces, foodways and the military's interaction with the press. Together these essays provide a path for historians to pursue groundbreaking areas of research about the Pacific and establish the Pacific War as the pivotal point in the twentieth century in the Pacific Basin. *At Cross Purposes* Richard C. Bush, 2015-02-12. Written by the former chairman and managing director of the American Institute in Taiwan, this book sheds new light on key topics in the history of U.S.-Taiwan relations. It fills an important gap in our understanding of how the U.S. government addressed Taiwan and the Taiwan Strait issue from the early 1940s to the present. One theme that runs through these essays is the series of obstacles erected that denied the people of Taiwan a say in shaping their own destiny. Franklin Roosevelt chose to return Taiwan to mainland China for geopolitical reasons; there was little pressure on the Kuomintang to reform its authoritarian rule until Congress got involved in the early 1980s. Chiang Kai-shek spurned American efforts in the 1960s to keep Taiwan in international organizations and behind the ROC's back, the Nixon-Carter and Reagan administrations negotiated agreements with the PRC that undermined Taiwan's position. In addition to discussing how the United States reacted to key human rights cases from the 1940s to the 1980s, the author also discusses the Bush and Clinton administrations' efforts to preserve U.S. interests while accommodating new forces in the region. All these episodes have an enduring relevance for the people of Taiwan and in his conclusion the author discusses where the relationship stands today. The book includes related documents that helped shape the U.S.-Taiwan relationship. *The War Against Japan, 1941-1945* John J. Sbrega, 2015-06-12. With over 5,200 entries, this volume remains one of the most extensive annotated bibliographies on the USA's fight against Japan in the Second World War. Including books, articles, and declassified documents up to the end of 1987, the book is organized into six categories. Part 1 presents reference works including encyclopedias, pictorial accounts, military histories, East Asian histories, historiographies. Part 2 covers diplomatic, political aspects of the war against Japan. Part 3 contains sources on the economic and legal aspects of the war against Japan. Part 4 presents sources on the military aspects of the war embracing land, air, and sea forces. Religious aspects of the war are covered in Part 5, and Part 6 deals with the social and cultural aspects, including substantial sections on the treatment of Japanese minorities in the USA, Hawaii, Canada, and Peru. *US Foreign Policy Toward Taiwan* Sabella Ogbobode Abidde, Tony Tai-Ting Liu, 2025-05-03. The US-China-Taiwan relationship is multilayered and fraught with widespread implications for the Indo-Pacific region. Utilizing the processes of historical periodization and analysis, this edited volume examines US foreign policy toward Taiwan between 1949 and 2023. Chapters are divided into two sections. Chapters in the first section are devoted to a chronological exploration

of US Taiwan relations during the Cold and Post Cold War eras Chapters in the second section delve deeper into specific policy concerns and tools such as potential regional implications of the Russo Ukraine war strategic ambiguity clarity and hedging policy and island chain strategy Illuminating the dynamics and complexities of the US foreign policy and decision making process in a climate of seemingly perpetual contestation this volume will be of interest to students and researchers of US foreign policy East Asian history and politics international relations comparative politics and conflict and security studies as well as members of the diplomatic corps governmental and non governmental organizations and those with an abiding interest in US East Asian affairs

The Hijacked War David Cheng Chang,2023-05-25 A study of the experiences of Chinese prisoners of war during the Korean War and the struggle over their repatriation The Korean War lasted for three years one month and two days but armistice talks occupied more than two of those years as more than 14 000 Chinese prisoners of war refused to return to Communist China and demanded to go to Nationalist Taiwan effectively hijacking the negotiations and thwarting the designs of world leaders at a pivotal moment in Cold War history In *The Hijacked War* David Cheng Chang vividly portrays the experiences of Chinese prisoners in the dark cold and damp tents of Kojé and Cheju Islands in Korea and how their decisions derailed the high politics being conducted in the corridors of power in Washington Moscow and Beijing Chang demonstrates how the Truman Acheson administration s policies of voluntary repatriation and prisoner reindoctrination for psychological warfare purposes the first overt and the second covert had unintended consequences The success of the reindoctrination program backfired when anti Communist Chinese prisoners persuaded and coerced fellow POWs to renounce their homeland Drawing on newly declassified archival materials from China Taiwan and the United States and interviews with more than 80 surviving Chinese and North Korean prisoners of war Chang depicts the struggle over prisoner repatriation that dominated the second half of the Korean War from early 1952 to July 1953 in the prisoners own words Praise for *The Hijacked War* This book represents a giant step forward in our understanding of the prisoner of war issue in the Korean War The research on the Chinese prisoners is extraordinary the stories of individuals compelling and the analysis of the context in which they made choices balanced and persuasive William Stueck author of *The Korean War An International History* David Cheng Chang s superlative research reveals the use of Chinese POWs as pawns in the larger Cold War standoff between the US and China during the Korean War His cogent analysis encourages us to think about the aftermath of the war and the lives of those who made the voluntary choice to join or who faced forced conformity Barak Kushner author of *Men to Devils Devils to Men Japanese War Crimes and Chinese Justice* Chang s exceptionally vivid prisoner s eye account based on camp archives and interviews with ex POWs leads him to condemn the key U S policymakers including President Harry Truman and Secretary of State Dean Acheson for their arrogance ignorance and negligence Foreign Affairs

China's Road to the Korean War Chen Jian,1995-01-05 China s Road to the Korean War Revolution and War Stephen M. Walt,2013-08-07 Revolution within a state almost invariably leads to intense security competition

between states and often to war In *Revolution and War* Stephen M Walt explains why this is so and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future In doing so he explores one of the basic questions of international relations What are the connections between domestic politics and foreign policy Walt begins by exposing the flaws in existing theories about the relationship between revolution and war Drawing on the theoretical literature about revolution and the realist perspective on international politics he argues that revolutions cause wars by altering the balance of threats between a revolutionary state and its rivals Each state sees the other as both a looming danger and a vulnerable adversary making war seem both necessary and attractive Walt traces the dynamics of this argument through detailed studies of the French Russian and Iranian revolutions and through briefer treatment of the American Mexican Turkish and Chinese cases He also considers the experience of the Soviet Union whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world An important refinement of realist approaches to international politics this book unites the study of revolution with scholarship on the causes of war
