Burch, 2015-10-28 The first urban century in history has arrived a majority of the world's population now resides in cities and their surrounding suburbs Urban expansion marches on and the planning and design of future cities requires attention to such diverse issues as human migration public health economic restructuring water supply climate and sea level change and much more This important book draws on two decades of pioneering social and ecological studies in Baltimore to propose a new way to think about cities and their social political and ecological complexity that will apply in many different parts of the world Readers will gain fresh perspectives on how to study build and manage cities in innovative and sustainable ways

Reconsidering Trenton Steven M. Richman, 2014-01-10 Trenton like the state of New Jersey is often maligned these days but there was a time when Trenton was the fiftieth largest city in the United States and boasted worldwide leaders in the iron and steel rubber and pottery industries Like many cities of its comparative size and prowess that came of age in the Industrial Revolution Trenton diminished in the aftermath of World War II and has become for many one of the lost cities a place of lessened population abandoned houses and shuttered factories Featuring a series of meditative explorations on the essence of the American post industrial city through the prism of Trenton this book explores the city's history architecture parks factories and neighborhoods through text and image highlighting the importance of such post industrial cities

Designing Cities Leonhard Schenk, 2023-02-20 Manual for Urban Design Second and revised edition of the successful edition with new projects Urban design is based on planning and design principles that need to meet functional demands on the one hand but on the other hand bring the design elements together into a distinctive whole The basic compositional principles are for the most part timeless Designing Cities examines the most important design and presentation principles of urban design using historical examples and contemporary international competition entries designed by practices including Foster Partners KCAP Architects Planners MVRDV and OMA At the core of the publication is

the question of how the projects were designed and what methods and tools were available to the designer such as parametric design in which variable parameters automatically influence the design and provide a range of possible solutions

Tools for urban design Current projects and award winning competition entries by renowned international practices A textbook for students and a practical design aid for practicing architects and planners **Re-imagining the City** Somaiyeh Falahat,2013-12-09 Somaiyeh Falahat investigates the spatial and morphological logic of pre modern Middle Eastern and North African cities so called Islamic cities She bases her argument on the fact that the city and consequently its form and structure similar to other human products have deep roots in the thought structure of the people Thus to know such places properly one has to refer to this life world and use it as a structure to observe the city This approach aims at opening new levels of understanding of the city by grasping indigenous concepts and structures it puts forward claims for the possibility of a new method of analysis The author studies the historic city of Isfahan as the case study and suggests that an indigenous term Hezar Too can explain the complexity of the city which has been interpreted as labyrinthine and maze like accounting for the essence of the city and its form in an appropriate way Looking at the city from this new point of view can help in observing it in its context and subsequently in discovering its real character **The City as Architecture** Sophie Wolfrum,Alban Janson,2019-04-01 Architecture creates complex spatial situations that are the subject of urban design Design uses a repertoire of specific architectural means in a creative way resulting in cities that can be lived in and perceived in their three dimensional experience The current book an extended new edition of Architecture of the City 2016 describes the repertoire with which architecture and design regain an entry to urbanistics It pleads for an architectonic turn in urbanistics a demand to finally comprehend the city architecturally the issue is not just about buildings in the city but about architecture of the city as a whole as is clearly expressed in the new title of City as Architecture **City** P.D. Smith,2012-01-01 An illustrated tribute to city dwelling surveys thousands of years of history and traces urban languages customs and economies while providing mini essays on such topics as the Tower of Babel and SimCity **Blake and the City** Jennifer Davis Michael,2006 Though usually classified as a Romantic Blake subverts and dissolves the binaries on which Romanticism turns self and other art and nature country and city Rather than reject the city outright like many of his contemporaries Blake embraces it as the intricate workshop of human imagination Each chapter of this book focuses on a specific text of Blake s that illustrates a particular conception of metaphorical embodiment of the city These shifting metaphors emphasize the construction of all human environments and the need for imaginative labor to build and interpret them This study seeks to bridge a gap between transcendent and historicist readings of Blake while at the same time challenging assumptions that still color our view of the city in the twenty first century Jennifer Davis Michael is Associate Professor of English at the University of the South **Urban Planning in a Changing World** Robert Freestone,2000 Urban planning in today s world is inextricably linked to the processes of mass urbanization and modernization which have transformed our lives over the last

hundred years Written by leading experts and commentators from around the world this collection of original essays will form an unprecedented critical survey of the state of urban planning at the end of the millennium **Urban Planning in a Changing World** Freestone,2000-06-22 Urban planning in today s world is inextricably linked to the processes of mass urbanization and modernization which have transformed our lives over the last hundred years Written by leading experts and commentators from around the world this collection of original essays will form an unprecedented critical survey of the state of urban planning a Closing the Urban-Rural Power Divide Thor Hogan,2023-09-25 This book proposes a radical reorganization of political and electoral power to address the current political imbalance between urban and rural populations in the United States Hogan argues that despite being smaller in population a financialist ruralist coalition has effectively used the Constitution especially equal representation in the Senate to create an anti urban vetocracy This political imbalance protects the interests of the financial elite and rural cultural conservatives while effectively blocking urban interests particularly regarding the adoption of a broad range of structural reforms and progressive policy preferences By re dividing many of the largest federated states into smaller city states the book posits the United States would reduce the ability of non urban interests to control the Senate This would allow an empowered urbanite alliance to pass the forward looking legislation the nation needs to remain internationally competitive in the coming decades Journey to the City Steve Tinney,Karen Sonik,2019-05-17 The Penn Museum has a long and storied history of research and archaeological exploration in the ancient Middle East This book highlights this rich depth of knowledge while also serving as a companion volume to the Museum s signature Middle East Galleries opening in April 2018 This edited volume includes chapters and integrated short focused pieces from Museum curators and staff actively involved in the detailed planning of the new galleries In addition to highlighting the most remarkable and interesting objects in the Museum s extraordinary Middle East collections this volume illuminates the primary themes within these galleries make settle connect organize and believe and provides a larger context within which to understand them The ancient Middle East is home to the first urban settlements in human history dating to the fourth millennium BCE therefore tracing this move toward city life figures prominently in the book The topic of urbanization how it came about and how these early steps still impact our daily lives is explored from regional and localized perspectives bringing us from Mesopotamia Ur Uruk and Nippur to Islamic and Persianate cites Rayy and Isfahan and finally connecting back to life in modern Philadelphia Through examination of topics such as landscape resources trade religious belief and burial practices daily life and nomads this very important human journey is investigated both broadly and with specific case studies *Micro-geographies of the Western City, c.1750-1900* Alida Clemente,Dag Lindström,Jon Stobart,2020-12-29 This book examines the overlapping spaces in modern Western cities to explore the small scale processes that shaped these cities between c 1750 and 1900 It highlights the ways in which time and space matter framing individual actions and practices and their impact on larger urban processes It draws on the original and detailed studies of cities in

Europe and North America through a micro geographical approach to unravel urban practices experiences and representations at three different scales the dwelling the street and the neighbourhood Part I explores the changing spatiality of housing examining the complex and contingent relationship between public and private and commercial and domestic as well as the relationship between representations and lived experiences Part II delves into the street as a thoroughfare connecting the city but also as a site of contestation over the control and character of urban spaces Part III draws attention to the neighbourhood as a residential grouping and as a series of spaces connecting flows of people integrating the urban space Drawing on a range of methodologies from space syntax and axial analysis to detailed descriptions of individual buildings this book blends spatial theory and ideas of place with micro history With its fresh perspectives on the Western city created through the built environment and the everyday actions of city dwellers the book will interest historical geographers urban historians and architects involved in planning of cities across Europe and North America
