Sourkes,1982 The Deepening Shade is an elegant synthesis of the psychology of life threatening illness The book s evocative power derives from the interweaving of clinical conceptualization with the words of patients and family members Rather than focusing on death Sourkes explores living with a life threatening illness

Armfuls of Time Barbara M. Sourkes,2008-01-28 I just wish I had armfuls of time These are the poignant words of a four year old facing a life threatening illness Armfuls of Time eloquently portrays the psychological experience of such children who are irreversibly changed from the moment of diagnosis Barbara M Sourkes Ph D describes how she works with these children using drawings soft toys and dolls stories and real medical objects to allow them to communicate their feelings about the treatment they undergo their relationship with their families their experience of the illness and living with the threat of loss Making extensive use of the words of children offering astute interpretations and sound practical advice this is a book that will be welcomed by all those concerned with the care of children with life threatening illnesses **Journal of the Society of Dyers and Colourists** Society of Dyers and Colourists,1908 For all interested in the use or manufacture of colours and in calico printing bleaching etc **Oxford Textbook of Palliative Care for Children** Ann Goldman,Richard Hain,Stephen Liben,2012-05-24 The first edition of this book was the first authoritative systematic and comprehensive text to define the increasingly important and evolving specialty of paediatric palliative care It explores both the clinical aspects and the multidimensional and holistic nature of care for the dying child based on the knowledge that all human experience has a physical emotional psychological and spiritual impact The book covers ways of providing support in all of these areas both for the child families and carers recognising the importance of teamwork and taking an evidence based approach The Oxford Textbook of Palliative Care for Children is about the care of children for whom cure of their underlying disease is not possible It encompasses the physical management of symptoms such as pain and nausea as well as social issues such as accessing appropriate education emotional issues such as techniques for communication and spiritual issues such as feelings of guilt and isolation The book suggests that if we are to maintain the quality of life for a child it is essential to recognise all these dimensions and try to address them This can only be done by recognising the skills of a wide range of professionals and working together in ways that are not always intuitive to any one discipline It explores the multidimensional and holistic nature of care for the dying child Those working in paediatric palliative care recognise that all human experience has emotional psychological and spiritual impact as well as physical and this book offers the essential information needed for those involved in paediatric care to find ways of providing support in all of these areas Comprehensive in scope exhaustive in

detail and definitive in authority this second edition has been thoroughly updated to cover new practices current
 epidemiological data and the evolving models that support the delivery of palliative medicine to children Paediatric palliative
 care is now developing in countries with differing health care systems and being adapted to suit individual illnesses and the
 varying resources and geography in different parts of the world This book is an essential resource for anyone who works with
 children worldwide **The Journal** Society of Dyers and Colourists, Bradford, Eng. (Yorkshire),1909 All the Year Round

 Samuel Johnson,1810 **Since Beckett** Peter Boxall,2011-11-03 Samuel Beckett is widely regarded as the last modernist
 the writer in whose work the aesthetic principles which drove the modernist project dwindled and were finally exhausted And
 yet despite this it is striking that many of the most important contemporary writers across the world see their work as
 emerging from a Beckettian legacy So whilst Beckett belongs in one sense to the end of the modernist period in another
 sense he is the well spring from which the contemporary in a wide array of guises can be seen to emerge Since Beckett looks
 at a number of writers in different national and political contexts tracing the way in which Beckett s writing inhabits the
 contemporary while at the same time reading back through Beckett to the modernist and proto modernist forms he inherited
 In reading Beckett against the contemporary in this way Peter Boxall offers both a compelling re reading of Beckett and a
