Jeremiah I. Dibua

The Development State African Issues:

Developmental State of Africa in Practice Steve Kayizzi-Mugerwa, Charles Leyeka Lufumpa, 2020-12-03 This book is the product of research undertaken at the African Development Bank AfDB on the lessons that the continent of Africa can draw from the role of the state in Asia's rapid economic development in the last 50 years. The book applies a cross-national comparative framework to analyse Africa's performance drawing broadly on the developmental states of Asia i.e. Japan, China, India, Vietnam etc. with focus on South Korea. The book argues that for Africa to replicate Asia's developmental success it may require more than just tweaking the public sector machinery. Dedicated institutions and a citizenry capable of demanding accountability from governments must become key ingredients of the development strategy. The book also provides insight into the learning experiences of Asia in addressing key national policy challenges i.e. land reform and quality of public administration at the federal and local levels, enhancing technical skills, boosting capabilities for sciences, engineering and mathematics and industrialization. *Modernization and the Crisis of Development in Africa* Jeremiah I. Dibua, 2017-11-28 In this book Jeremiah I. Dibua challenges prevailing notions of Africa's development crisis by drawing attention to the role of modernization as a way of understanding the nature and dynamics of the crisis and how to overcome the problem of underdevelopment. He specifically focuses on Nigeria and its development trajectory since it exemplifies the crisis of underdevelopment in the continent. He explores various theoretical and empirical issues involved in understanding the crisis including state, class, gender and culture, often neglected in analysis from an interdisciplinary radical political economy perspective. This is the first book to adopt such an approach and to develop a new framework for analyzing Nigeria's and Africa's development crisis. It will influence the debate on the development dilemma of African and Third World societies and will be of interest to scholars and students of race and ethnicity, modern African history, class analysis, gender studies and development studies. **The Challenges of Democratic Governance in Nigeria's Fourth Republic** Stanley Naribo Ngoa, Farooq A. Kperogi, Eghosa E. Osaghae, 2024-10-14 This book is a collection of scholarly essays from some of Nigeria's most notable social science scholars on the character, contours and peculiarities of democratic practices in Nigeria's fourth attempt at constitutional rule after years of brutally absolutist military regimes. The Fourth Republic began in 1999 and continues to this day. It is coterminous with the restoration of constitutional rule after 16 years of sustained military rule which represents the longest stretch of democratic self-rule since Nigeria won independence from British colonialism in 1960. The chapters in this book contain scholarly insights into the pitfalls of governance, institutional dysfunctions and foundational woes that continue to threaten the vitality of the Fourth Republic. Contributors to the book offer critical theoretical lenses to gaze at the decline in democratic citizenship, weakening of faith in the promises of democracy, loss of critical media engagement with the state and deterioration of the socio-political fortunes of the state in Nigeria. *Housing and Urbanization Issues in Africa* United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on African

United States - Africa Security Relations Kelechi A. Kalu, George Klay Kieh, 2013-11-07 United States Africa relations have experienced four major cycles The first cycle was during the Cold War 1960 1990 During this period the U S developed a one sided relationship with various African states in which the latter served as foot soldiers for the U S in its competition with the Soviet Union for global domination Among other things the various client African states provided the U S with access to airfields deep water ports and sites for the establishment of various intelligence gathering facilities In addition the U S used various groups like UNITA led by Jonas Savimbi in Angola to undermine and fight pro Soviet regimes on the continent The second cycle of the relationship covered the period 1991 1998 During this time the U S scaled down its security activities in Africa The major reason was that with the end of the Cold War Africa with few exceptions like Egypt was no longer a major front for the promotion of U S Security interests The third cycle commenced in 1998 and ended in 2001 This period was characterized by the U S search for an approach to frame its security relations with Africa In this vein the U S undertook various military security initiatives The fourth cycle began after the 9 11 terrorist attacks against the American homeland Since then the U S has expanded the scope of its security relations with Africa as reflected in the establishment of various initiatives and programs At the core is the prosecution of the American war on terror Against this backdrop this book examines some of the major dimensions of the U S security relations with Africa including American security interests on the continent the war on terror AFRICOM and military cooperation Using the book's integrative theoretical framework each of the chapters in the

International Issues and Perspectives ,1983 The End of the Developmental State? Michelle Williams,2014-01-10

The End of the Developmental State brings together leading scholars of development to assess the current status of the developmental state in several developing and transitional economies of South Korea Taiwan Ireland the United Kingdom China South Africa Brazil and India Has the concept of the developmental state become outmoded These authors would suggest not However they do argue that the historical trajectories of developmental states in Asia Latin America Africa and Europe suggest all too clearly that the concept must be re examined critically and creatively The range and diversity of their positions and their rejection of stale programmatic positions from the past will revitalize the debate on the role of the state in social and economic transformation in the twenty first century By bringing together careful comparative analyses of national cases in both the Global North and South the volume highlights pivotal conditions economic restructuring domestic politics epistemic shifts and ecological limits that are forcing revision of the goals and strategies of developmental states and suggests that states that ignore these new conditions will indeed see the end of the developmental state The Feasibility of the Democratic Developmental State in the South Daniel A. Omoweh,2012 The book examines the prospects of a democratic developmental state in Latin American African and Asian countries collectively referred to in this work as the global South Practically the state refers to the political leadership Within this context it interrogates the politics of the state and the unresolved critical issues it has engendered in the state development discourse such as the need to re conceptualize the developmental state democratization elections inclusion indigenous entrepreneurial and business class political parties and cooperation among the countries of the South It looks into the need to re centre the sought state in the development process of the Southern countries after over two and a half decades of embracing neo liberal policies and economic reforms that rather than transform sank the adjusted economies into deeper political social and economic crises It contends that the capacity of the state to overcome the market and democratic deficits resides with its democratic credentials Finally it suggests strategies that could lead to the rise of a democratic developmental state in the South Energy Security Richard Youngs,2009-01-28 This book charts the EU s response to the challenge of energy security with a focus on the foreign policy

dimensions and examines how the EU's approach to energy security is played out in different producer countries and regions
