What Is Enlightenment Wei Zhang, 2010-05-19 What is enlightenment Wei Zhang brings together the fabled consideration of enlightenment by Kant his contemporaries and modern respondents such as Habermas and Foucault with the question What is Chinese enlightenment Kant and his peers began a discussion of the notion of enlightenment in the pages of the *Berlinische Monatsschrift* when that newspaper's editor posed the question Was ist Aufklärung in 1784 Chinese intellectuals began a similar consideration in the wake of the May Fourth cultural movement of 1919 which marked a self conscious break from the feudal past and a new engagement with the West Zhang asks to what extent European enlightenment can be regarded as purely philosophical and isolated from political events and alternately to what extent the Chinese enlightenment can be split into separate political and intellectual discourses Her work yields a new set of conceptual questions and practical issues and provides new energy to the dialogue on political and cultural modernity In cross cultural context Zhang finds the answers to the question What is enlightenment are multiple pluralistic dynamic and self renewing

An Abortive Chinese Enlightenment Weiran Lin, 1996 China in the German Enlightenment Bettina Brandt, Daniel Purdy, 2016-05-12 Over the course of the eighteenth century European intellectuals shifted from admiring China as a utopian place of wonder to despising it as a backwards and despotic state That transformation had little to do with changes in China itself and everything to do with Enlightenment conceptions of political identity and Europe's own burgeoning global power China in the German Enlightenment considers the place of German philosophy particularly the work of Leibniz Goethe Herder and Hegel

in this development Beginning with the first English translation of Walter Demel s classic essay How the Chinese Became Yellow the collection s essays examine the connections between eighteenth century philosophy German Orientalism and the origins of modern race theory Power and Identity in the Chinese World Order Billy K.L. So,John Fitzgerald,Jianli Huang,James K. Chin,2003-03-01 Wang Gungwu is one of the most influential historians of his generation Initially renowned for his pioneering work on the structure of power in early imperial China he is more widely known for expanding the horizons of Chinese history to include the histories of the Chinese and their descendents outside China It is probably no coincidence Philip Kuhn observes that the most comprehensive historian of the Overseas Chinese is the historian most firmly grounded in the history of China itself This book is a celebration of the life work and impact of Professor Wang Gungwu over the past four decades It commemorates his contribution to the study of Chinese history and the abiding influence he has exercised over later generations of historians particularly in the Asia Pacific region The book begins with an historiographical survey by Philip Kuhn Francis Lee Higginson Professor of History at Harvard University of Wang Gungwu s enduring contribution to scholarship It concludes with an engaging oral history of Professor Wang s life career and research trajectory The intervening chapters explore many of the fields in which Wang Gungwu s influence has been felt over the years including questions of political authority national identity commercial life and the history of the diaspora from imperial times to the present day Each of these chapters is authored by a former student of Professor Wang now working and teaching in Hong Kong Southeast Asia Australasia Taiwan and Canada *The Stranger and the Chinese Moral Imagination* Haiyan Lee,2014-11-12 In the last two decades China has become a dramatically more urban society and hundreds of millions of people have changed residence in the process Family and communal bonds have been broken in a country once known as a society of kith and kin There has been a pervasive sense of moral crisis in contemporary China and the new market economy doesn t seem to offer any solutions This book investigates how the Chinese have coped with the condition of modernity in which strangers are routinely thrust together Haiyan Lee dismisses the easy answers claiming that this moral crisis is merely smoke and mirrors conjured up by paternalistic overwrought leaders and scholars or that it can be simply chalked up to the topsy turvy of a market economy on steroids Rather Lee argues that the perception of crisis is itself symptomatic of a deeper problem that has roots in both the Confucian tradition of kinship and the modern state management of stranger sociality This ambitious work is the first to investigate the figure of the stranger foreigner peasant migrant bourgeois intellectual class enemy unattached woman animal across literature film television and museum culture Lee s aim is to show that hope lies with a robust civil society in which literature and the arts play a key role in sharpening the moral faculties and apprenticing readers in the art of living with strangers In so doing she makes a historical comparative and theoretically informed contribution to the on going conversation on China s un civil society **The Routledge History of Chinese Philosophy** Bo Mou,2008-10-27 The History of Chinese Philosophy is a comprehensive and authoritative examination of the movements and

China in Early Enlightenment Political Thought

Simon Kow, 2016-08-25 China in Early Enlightenment Political Thought examines the ideas of China in the works of three major thinkers in the early European Enlightenment of the late seventeenth to early eighteenth centuries Pierre Bayle Gottfried Wilhelm Leibniz and the Baron de Montesquieu Unlike surveys which provide only cursory overviews of Enlightenment views of China or individual studies of each thinker which tend to address their conceptions of China in individual chapters this is the first book to provide in depth comparative analyses of these seminal Enlightenment thinkers that specifically link their views on China to their political concerns Against the backdrop especially of the Jesuit accounts of China which these philosophers read Bayle Leibniz and Montesquieu interpreted imperial China in three radically divergent ways as a tolerant atheistic monarchy as an exemplar of human and divine justice and as an exceptional but nonetheless corrupt despotic state The book thus shows how the development of political thought in the early Enlightenment was closely linked to the question of China as a positive or negative model for Europe and argues that revisiting Bayle's approach to China is a salutary corrective to the errors and presumptions in the thought of Leibniz and Montesquieu The book also discusses how Chinese reformers of the late nineteenth and early twentieth centuries drew on Enlightenment writers' different views of China as they sought to envisage how China should be remodeled

Chinese and Buddhist Philosophy in Early Twentieth-Century German Thought Eric S. Nelson, 2017-08-24 Presenting a comprehensive portrayal of the reading of Chinese and Buddhist philosophy in early twentieth century German thought Chinese and Buddhist Philosophy in Early Twentieth Century German Thought examines the implications of these readings for contemporary issues in comparative and intercultural philosophy Through a series of case studies from the late 19th century and early 20th century Eric Nelson focuses on the reception and uses of Confucianism Daoism and Buddhism in German philosophy covering figures as diverse as Buber Heidegger and Misch He argues that the growing intertextuality between traditions cannot be appropriately interpreted through notions of exclusive identities closed horizons or unitary traditions Providing an account of the context motivations and hermeneutical strategies of early twentieth century European thinkers' interpretation of Asian philosophy Nelson also throws new light on the question of the relation between Heidegger and Asian philosophy Reflecting the growing interest in the possibility of intercultural and global philosophy Chinese and Buddhist Philosophy in Early Twentieth Century German Thought opens up the possibility of a more inclusive intercultural conception of philosophy

Constructing China Mobo Gao,2018-07-20 From fear and

anxiety to celebration China's rise has provoked a variety of responses across the world In light of this phenomenon how are our understandings of China produced From West to East Mobo Gao interrogates knowledge production rejecting the supposed objectivity of empirical statistics and challenging the assumption of a dichotomy between the Western liberal democracy and Chinese authoritarianism By examining issues such as the Chinese Neo Enlightenment and neoliberalism national interest vested in Western scholarship representations of the Great Leap Forward and the Cultural Revolution and the South China Sea the book asks how is contemporary China constructed By dissecting the political agenda and conceptual framework of commentators on China Gao provocatively urges those not only on the Right but also on the Left to be self critical of their views on Chinese politics economics and history Chinese Public Theology Alexander Chow,2018 It has been widely recognized that Christianity is the fastest growing religion in one of the last communist run countries of the world the People's Republic of China Yet it would be a mistake to describe Chinese Christianity as merely a clandestine faith or as hoped by the Communist Party of China a privatized religion Alexander Chow argues that Christians in mainland China have been constructing a more intentional public theology to engage the Chinese state and society since the end of the Cultural Revolution 1966-76 Chinese Public Theology recalls the events which have led to this transformation and examines the developments of Christianity across three generations of Chinese intellectuals from the state sanctioned Protestant church the secular academy and the growing urban renaissance in Calvinism Moreover Chow shows how each of these generations have provided different theological responses to the same sociopolitical moments of the last three decades This study illustrates how a growing understanding of Chinese public theology has been developed through a subconscious intermingling of Christian and Confucian understandings of public intellectualism These factors result in a contextually unique understanding of public theology but also one which is faced by contextual limitations as well With this in mind Chow draws from the Eastern Orthodox doctrine of theosis and the Chinese traditional teaching of the unity of Heaven and humanity Tian ren heyi to offer a way forward in the construction of a Chinese public theology

Optimism, Literature, and Culture in American Capitalism and Chinese Socialism Wendy Larson,2025-10-09 This book examines and interprets the uncanny similarity between capitalism and socialism over the twentieth century as both systems found ways to encourage happiness and optimism in their citizens As inheritors of the Enlightenment's emphasis on scientific rationality these cultures sought to instill in their citizens a belief in progress in essence history shows steady improvement and the future will continue in this direction indefinitely Optimism which bears a temporal quality a continual gaze to the future is the favored state of mind in both capitalist and socialist societies which have embraced progress as a theory of history Related to optimism is happiness which emphasizes the present When progress as a theory of history is generally accepted happiness becomes a transference of future advancement into present subjectivity ultimately expressing acceptance of and satisfaction with society Fundamentally a literary study strongly embedded in history this project looks to fiction to show not

only how imaginary characters became models for readers but also how narrative encouraged readers to engage in a struggle for new values Characters worked out or failed to work out questions related to the personal and larger cultural shaping of an ongoing optimism At the same time writers questioned these models and purposefully or otherwise displayed the downsides of excessive mandated or coerced optimism They also challenged the way in which optimism encompassed a belief in progress that itself could be camouflaged and the demands for a happiness that imposed everyone else s wellbeing before one s own The book compares Yang Mo s famous Song of Youth 1958 with Horatio Alger Jr s Ragged Dick 1868 Eleanor Hodgman Porter s Pollyanna 1913 and Frederick Kohner s Gidget 1957 Wang Meng s Long Live Youth written 1953 and A Young Man Arrives at the Organization Department 1956 are evaluated against Jack Kerouac s On the Road 1958 This study both incorporates and challenges various political and cultural theoretical concepts including revolutionary optimism permanent revolution the theory of literary typicality the New Soviet Person and the positive hero optimistic autosuggestion cultural authenticity and positive thinking

Stateless Subjects Petrus Liu, 2012-01-31 Known in the West primarily through poorly subtitled films Chinese martial arts fiction is one of the most iconic and yet the most understudied form of modern sinophone creativity Current scholarship on the subject is characterized by three central assumptions against which this book argues first that martial arts fiction is the representation of a bodily spectacle that historically originated in Hong Kong cinema second that the genre came into being as an escapist fantasy that provided psychological comfort to people during the height of imperialism and third that martial arts fiction reflects a patriotic attitude that celebrates the greatness of Chinese culture which in turn is variously described as the China complex colonial modernity essentialized identity diasporic consciousness anxieties about globalization or other psychological and ideological difficulties experienced by the Chinese people
