into instruments of national policy. It warns of the acclimatization of children through comic books, TV, radio, and motion pictures to concepts of violence, horror, and sudden death. It reports the beginnings of loyalty oaths for parents. Finally, it projects action: Americans must take to protect the welfare and happiness of their children from the dangers that beset them on every side as a consequence of the Cold War.

An Analysis of John Lewis Gaddis's *We Now Know* Scott Gilfillan, Jason Xidias, 2017-07-05. John Lewis Gaddis had written four previous books on the Cold War by the time he published *We Now Know*, so the main thrust of his new work was not so much to present new arguments as to re-examine old ones in the light of new evidence that began emerging from behind the Iron Curtain after 1990. In this respect, *We Now Know* can be seen as an important exercise in evaluation. Gaddis not only undertook to reassess his own positions, arguing that this was the only intellectually honest course open to him in such changing circumstances, but also took the opportunity to address criticisms of his early works, not least by post-revisionist historians. The straightforwardness and flexibility that Gaddis exhibited in consequence enhanced his book's authority. He also deployed interpretative skills to help him revise his methodology and reinterpret key historical arguments, integrating new comparative histories of the Cold War era into his broader argument.
