The Cross Border Connection Immigrants Emigrants And Their Homelands:

The Cross-Border Connection Roger Waldinger, 2015-01-05 International migration presents the human face of globalization Roger Waldinger addresses a paradox at its core emigrants departing one society become immigrants in another tying those two societies together He explains how interconnections between place of origin and destination are built and maintained and why they eventually fall apart

The Cross-border Connection Roger David Waldinger, 2017 Newcomers moving away from the developing world find that migration is a good thing letting them enjoy the benefits of residence in the developed world some of which they send on to their relatives at home in the form of remittances Residing in a democratic state free from the long arm of their place of origin emigrants mobilize to produce change in the homelands they left Emigration states in turn extend their influence across boundaries to protect nationals and retain their loyalty abroad Time however proves corrosive and in the end most immigrants and their descendants become progressively disconnected from their home country reorienting their concerns and commitments to the place where they actually live Provided by publisher

Undocumented Politics Abigail Leslie Andrews, 2018-08-21 In 2018 more than eleven million undocumented immigrants lived in the United States Not since slavery had so many U S residents held so few political rights Many strove tirelessly to belong Others turned to their homelands for hope What explains their clashing strategies of inclusion And how does gender play into these fights *Undocumented Politics* offers a gripping inquiry into migrant communities struggles for rights and resources across the U S Mexico divide For twenty one months Abigail Andrews lived with two groups of migrants and their families in the mountains of Mexico and in the barrios of Southern California Her nuanced comparison reveals how local laws and power dynamics shape migrants agency Andrews also exposes how arbitrary policing abets gendered violence Yet she insists that the process does not begin or end in the United States Rather migrants interpret their destinations in light of the hometowns they leave behind Their counterparts in Mexico must also come to grips with migrant globalization And on both sides of the border men and women transform patriarchy through their battles to belong Ambitious and intimate *Undocumented Politics* reveals how the excluded find space for political voice

Soviet Signoras Martina Cvajner, 2019-10-22 Across the Western world the air is filled with talk of immigration The changes brought by immigration have triggered a renewed fervor for isolationism able to shutter political traditions and party systems So often absent from these conversations on migration are however the actual stories and experiences of the migrants themselves In fact migration does not simply transport people It also changes them deeply Enter Martina Cvajner s *Soviet Signoras* a far reaching ethnographic study of two decades in the lives of women who migrated to northern Italy from several former Soviet republics Cvajner details the personal and collective changes brought about by the experience of migration for these women from the first hours arriving in a new country with no friends relatives or existing support networks to later remaking themselves for their new environment In response to their traumatic displacement the women of *Soviet Signoras* nearly all of whom found work in their new Western homes as elder care givers refashioned themselves in highly sexualized materialistic and intentionally conspicuous ways Cvajner s focus on overt sexuality and materialism is far from sensationalist though By zeroing in on these elements of personal identity she reveals previously unexplored sides of the social psychology of migration coloring our contemporary discussion with complex shades of humanity

Ethnopolitical Entrepreneurs Daniel Fittante, 2023-12-15 *Ethnopolitical Entrepreneurs* presents the story of the Armenians of Glendale California Coming from Argentina Armenia Egypt Iran Jordan Lebanon Russia Syria and many other countries this group is internally fragmented and often has limited experience with the American political system

Nonetheless Glendale's Armenians have rapidly mobilized and remade an American suburban space in their own likeness. In telling their story, Daniel Fittante expands our understanding of US political history. From the late nineteenth century onward, Irish, Italian, Jewish, and several other immigrant populations in large American cities began changing the country's political reality. The author shows how Glendale's Armenians, as well as many other immigrants, are now changing the country's political reality within its dynamic multiethnic suburbs. The processes look different in various suburban contexts, but the underlying narrative holds: immigrant populations converge on suburban areas, and ambitious political actors develop careers by driving coethnic political incorporation.

Specters of Belonging Adrián Félix, 2019. As the United States hardens its border with Mexico, how do migrants make transnational claims of citizenship in both nation-states? By enacting citizenship in both countries, Mexican migrants are challenging the meaning of membership and belonging from the margins of both citizenship regimes. With their incessant border-shattering political practices, Mexican migrants have become the embodiment of transnational citizenship on both sides of the divide. Drawing on his experiences leading citizenship classes for Mexican migrants and working with cross-border activists, Adrián Félix examines the political lives and deaths of Mexican migrants in *Specters of Belonging*. Tracing transnationalism across the different stages of the migrant political life cycle, beginning with the so-called political baptism of naturalization and ending with the practice by which migrant bodies are repatriated to Mexico for burial after death, Félix reveals the varied ways in which Mexican transnational subjects practice citizenship in the United States as well as Mexico. As such, Félix unearths how Mexican migrants' specters of belonging perennially haunt the political projects of nationalism, citizenship, and democracy on both sides of the border.

The Sociology of Immigration Daniel Herda, 2024-01-22. *The Sociology of Immigration* provides students with a contemporary sociological perspective on the entire immigration process: deciding to leave one's home country, establishing oneself in a new host society, being received by the host population, and deciding whether to assimilate or seek citizenship. Using historical and contemporary examples, it applies many foundational concepts in sociology, such as culture, socialization, race, and ethnicity, gender, and the sociological imagination to the phenomenon of human migration. The text introduces immigration and migration on a global scale but also emphasizes immigration in a US context.

Citizens in Motion Elaine Lynn-Ee Ho, 2018-12-18. More than 35 million Chinese people live outside China, but this population is far from homogenous, and its multifaceted national affiliations require careful theorization. This book unravels the multiple shifting paths of global migration in Chinese society today, challenging a unilinear view of migration by presenting emigration, immigration, and re-migration trajectories that are occurring continually and simultaneously. Drawing on interviews and ethnographic observations conducted in China, Canada, Singapore, and the China-Myanmar border, Elaine Lynn-Ee Ho takes the geographical space of China as the starting point from which to consider complex patterns of migration that shape nation-building and citizenship both in origin and destination countries. She uniquely brings together various migration experiences

and national contexts under the same analytical framework to create a rich portrait of the diversity of contemporary Chinese migration processes By examining the convergence of multiple migration pathways across one geographical region over time Ho offers alternative approaches to studying migration migrant experience and citizenship thus setting the stage for future scholarship Immigration and Health Reanne Frank,2019-01-21 This book brings together leading scholars from a wide
