Criterion **Animal Oppression and Human Violence** David A. Nibert, 2013-05-07 Jared Diamond and other leading scholars have argued that the domestication of animals for food labor and tools of war has advanced the development of human society. But by comparing practices of animal exploitation for food and resources in different societies over time, David A. Nibert reaches a strikingly different conclusion. He finds in the domestication of animals which he renames domeseccration a perversion of human ethics, the development of large scale acts of violence, disastrous patterns of destruction and growth curbing epidemics of infectious disease. Nibert centers his study on nomadic pastoralism and the development of commercial ranching, a practice that has been largely controlled by elite groups and expanded with the rise of capitalism. Beginning with the pastoral societies of the Eurasian steppe and continuing through to the exportation of Western meat centered eating habits throughout today's world, Nibert connects the domeseccration of animals to violence, invasion, extermination, displacement, enslavement, repression, pandemic, chronic disease and hunger. In his view, conquest and subjugation were the results of the need to appropriate land and water to maintain large groups of animals and the gross amassing of military power. It has its roots in the economic benefits of the exploitation, exchange and sale of animals. Deadly zoonotic diseases, Nibert shows, have accompanied violent developments throughout history, laying waste to whole cities, societies and civilizations. His most powerful insight situates the domeseccration of animals as a precondition for the oppression of human populations, particularly indigenous peoples, an injustice impossible to rectify while the material interests of the elite are inextricably linked to the exploitation of animals. Nibert links domeseccration to some of the most critical issues facing the world today, including the depletion of fresh water, topsoil and oil reserves, global warming and world hunger, and he reviews the U.S. government's military response to the inevitable crises of an overheated, hungry, resource depleted world. Most animal advocacy campaigns reinforce current oppressive practices, Nibert argues. Instead, he suggests reforms that challenge the legitimacy of both domeseccration and capitalism.

PROGRESSION OF KNOWLEDGE IN WESTERN CIVILIZATION Mirza Iqbal Ashraf, 2023-09-18 The word civilization, which is a relatively recent application from eighteenth century when it came into currency, is generally invoked more with a rhetorical flourish than argued in philosophical perspective. But history of knowledge considers its true object is the study of human mind to know what his mind has believed, thought and felt in diverse periods of its progression in the history of a civilization. Mirza Iqbal Ashraf, as a research scholar of Islamic and Western philosophies, identifying the Four Explosions of Knowledge from ancient to modern time, in history of knowledge, offers the readers in *Progression of Knowledge in the Western Civilization* uniquely within philosophical perspective that the Western world is a civilization of knowledge. This also

means whereas it is important to understand today's world so that we can deal with our contemporary period's civilizational challenges it will be incomplete if we do not assess that modernity is born from the progress made by the knowledge of the past thinkers. But knowledge does not arrive fully formed; it requires many minds, specifically those minds which are free from the civilization's religious, cultural, and geophysical trappings. In *The Progression of Knowledge in Western Civilization*, Ashraf has expounded that even in modern time no knowledge is complete without visiting the knowledge of the past, especially of the great thinkers of the Classical Greek period, the scholars at the House of Wisdom in Baghdad, and the famous centers of knowledge at Cairo and Cordova of Arab Spain. In this book, the author has discussed when, in some other regions of the world, might be familiar with philosophy and science in one way or another, why such a treasure of knowledge emerged particularly in Greece, that became a foundation of voluminous work of literature in almost every field of knowledge, and how it amazingly became the foundation of the history of progression of knowledge in the Western civilization, which is timelessly flourishing until today.

Understanding Leadership Robert M McManus, Gamaliel Perruci, 2015-04-10. Lao Tzu, Marx, the Buddha, Ibsen, Machiavelli, these are just a few of the world's great thinkers who have weighed in on the subject of leadership over the centuries. Yet the contemporary student of leadership often overlooks many of these names in favour of more recent theorists hailing from the social sciences. *Understanding Leadership: An Arts and Humanities Perspective* takes a different angle, employing the works of the great philosophers, authors, and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership. The authors build their conceptual framework using The Five Components of Leadership Model, which recognizes the leader, the followers, the goal, the environmental context, and the cultural values and norms that make up the leadership process. Supporting the text are a wealth of case studies which reflect on works such as Ayn Rand's novella *Anthem*, Eugène Delacroix's painting *Liberty Leading the People*, Charlie Chaplin's film *Modern Times*, Athol Fugard's play *Master Harold and the Boys*, Lao Tzu's poetic work *Tao Te Ching*, and Antonín Dvořák's *New World Symphony*. The authors also introduce studies from various world cultures to particularly illustrate the role cultural values and norms play in leadership. This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world. *Understanding Leadership: An Arts and Humanities Perspective* will be a valuable textbook for both undergraduate and postgraduate leadership students, while leadership professionals will also appreciate the book's unique liberal arts and cultural approach.

The Farmerfield Mission Fiona Vernal, 2012-08-29. *The Farmerfield Mission* explores the history of a residential Christian community in South Africa established for Africans in 1838 by Methodist missionaries, destroyed in 1962 by the apartheid government when it was zoned as an exclusive area for white occupation, and returned to the descendants of the community under South Africa's land reform program in 1999.

A Companion to Ezra Pound's Guide to Kulchur Anderson Araujo, 2018. Published in 1938, *Guide to Kulchur* encapsulates Ezra Pound's chief concerns: his cultural, historiographic, philosophical, and epistemological theories; his aesthetics and poetics; and

his economic and political thought In its fifty eight chapters and postscript it constitutes an interdisciplinary and transhistorical cultural anthropology that exemplifies his slogan for the renovation of ancient wisdom for current use Make It New Though wildly encyclopedic allusive and recursive Guide to Kulchur is inescapable in any serious study of Pound A Companion to Ezra Pound s Guide to Kulchur addresses the formidable interpretive challenges his most far reaching prose tract presents to the reader Providing page by page glosses on key terms and passages the Companion also situates Pound s allusions and references in relation to other texts in his vast body of work especially The Cantos Striking a balance between rigorous scholarly standards and readerly accessibility the book is designed to meet the needs of the specialist while keeping the critical apparatus unobtrusive so as also to appeal to students and the general public A long needed resource A Companion to Ezra Pound s Guide to Kulchur makes a lasting contribution to the study of one of the most influential and controversial literary figures of the twentieth century
