Western Isles Folk Tales:

Western Isles Folk Tales Ian Stephen, 2014-10-01 Western Isles Folk Tales is a representative collection of stories from the geographical span of the long chain of islands known as the Outer Hebrides. Some are well known tales and others have been sought out by the author but all are retold in the natural voice of a local man. You will find premonitions, accounts of uncanny events and mythical beings such as the blue men of the stream who test mariners venturing into the tidal currents around the Shiant Islands. Also included are tales from islands now uninhabited like the archipelago of St Kilda in contrast to the witty yarns from bustling harbours. The author was the inaugural winner of the Robert Louis Stevenson Fellowship 1995 and his Acts of Trust collaboration with visual artist Christine Morrison won the multi arts category in the first British Awards for Storytelling Excellence 2012. Both author and illustrator live in Stornoway, Isle of Lewis. *Highland Folk Tales* Bob Pegg, 2011-11-30 The Highlands of Scotland are rich in traditional stories. Even today in the modern world of internet and supermarkets, old legends dating as far back as the times of the Gaels, Picts and Vikings are still told at night around the fireside. They are tales of the sidh, the fairy people and their homes in the green hills of great and gory battles and of encounters with the last wolves in Britain, of solitary ghosts and of supernatural creatures like the sinister waterhorse, the mermaid and the Fuath, Scotland's own Bigfoot. In a vivid journey through the Highland landscape from the towns and villages to the remotest places by mountains, cliffs, peatland and glen, storyteller and folklorist Bob Pegg takes the reader along old and new roads to places where legend and landscape are inseparably linked. *The Shamanic Themes in Armenian Folktales* Michael Berman, 2009-03-26 In Marxist anthropological theory, shamanism represented one of the early forms of religion that later gave rise to more sophisticated beliefs in the course of human advancement. The premise of Marxism was that eventually at the highest levels of civilization, the sacred and religion would eventually die out. Znamenski 2007 p 322. Though history has of course since disproved this, the theory clearly had a great bearing on what was written in the former Soviet Union about shamanism and also on people's attitudes in the former Soviet Republics towards such practices. On the other hand, it has been suggested that all intellectuals driven by nationalist sentiments, directly or indirectly, are always preoccupied with searching for the most ancient roots of their budding nations in order to ground their compatriots in particular soil and to make them more indigenous. Znamenski 2007 p 28. Although this might apply to searching for the roots of Christianity in Armenia, when it comes to searching for the roots of pagan practices, interest on the part of the people of Armenia is generally speaking not so forthcoming. This impasse, coupled with the effects of the repressions against religions including shamanism unleashed by the Soviet government between the 1930s and 1950s, along with the recent surge of interest in the Armenian Orthodox church, a backlash to the seventy years of officially sanctioned atheism, makes research into the subject no easy business. However, hopefully, this study will at least in some small way help to set the process in motion.
