Western Philosophy An Anthology Blackwell:

Western Philosophy John G. Cottingham, 2021-07-02 The new edition of this celebrated anthology surveys the Western philosophical tradition from its origins in ancient Greece to the work of today's leading philosophers. *Western Philosophy An Anthology* provides an authoritative guided tour through the great tradition of Western philosophical thought. The seminal writings of the great philosophers along with more recent readings of contemporary interest are explored in 144 substantial and carefully chosen extracts, each preceded by a lucid introduction guiding readers through the history of a diverse range of key arguments and explaining how important theories fit into the unfolding story of Western philosophical inquiry. Broad in scope, the anthology covers all the main branches of philosophy: theory of knowledge and metaphysics, logic and language, philosophy of mind, the self and freedom, religion and science, moral philosophy, political theory, aesthetics, and the meaning of life. All in self-contained parts which can be worked on by students and instructors independently. The third edition of the *Anthology* contains newly incorporated classic texts from thinkers such as Aquinas, Machiavelli, Descartes, William James, and Wittgenstein. Each of the 144 individual extracts is now followed by sample questions focusing on the key philosophical problems raised by the excerpt and accompanied by detailed further reading suggestions that include up-to-date links to online resources. Also new to this edition is an introductory essay written by John Cottingham which offers advice to students on how to read and write about a philosophical text. Part of the Blackwell Philosophy Anthologies series, *Western Philosophy An Anthology Third Edition* remains an indispensable collection of classic source materials and expert insights for both beginning and advanced university students in a wide range of philosophy courses. **Western Philosophy** John G.

Buddhist Literature as Philosophy, Buddhist Philosophy as Literature Rafal K. Stepień, 2020-11-01 Can literature reveal reality Is philosophical truth a literary artifice How does the way we think affect what we can know Buddhism has been grappling with these questions for centuries and this book attempts to answer them by exploring the relationship between literature and philosophy across the classical and contemporary Buddhist worlds of India Tibet China Japan Korea

and North America Written by leading scholars the book examines literary texts composed over two millennia ranging in form from lyric verse narrative poetry panegyric hymn and koan to novel hagiography secret autobiography autofiction treatise and sutra all in sustained conversation with topics in metaphysics ethics aesthetics and the philosophies of mind language literature and religion Interdisciplinary and cross cultural this book deliberately works across and against the boundaries separating three mainstays of humanistic pursuit literature philosophy and religion by focusing on the multiple relationships at play between content and form in works drawn from a truly diverse range of philosophical schools literary genres religious cultures and historical eras Overall the book calls into question the very ways in which we do philosophy study literature and think about religious texts It shows that Buddhist thought provides sophisticated responses to some of the perennial problems regarding how we find create and apply meaning on the page in the mind and throughout our lives

Overcoming Toxic Emotions is a compelling theme to enrich the restorative justice literature on the complex tasks of relational repair in a transitional society. With its emphasis on the centrality of rebuilding trust and renewing the mode of being together, this book is an innovative addition to the literature on justice in transitional societies. It offers an original assessment of the Nigerian experience of restorative justice in peacebuilding. This genuinely theological work opens new perspectives for a more adequate understanding of the Christian contribution to peacebuilding and the secular debate on restorative justice. Yet the author expresses himself as an African theologian paying attention to the specific context of the problems about transitional justice and integrating spontaneously the wisdom of his dual cultures, Yoruba and Christianity. With its attentiveness to victim perspectives, the book engages the traditional notion of divine omnipotence and vulnerability. The book rejects the notion of the fetish omnipotent God. It opts instead for an image of God as vulnerable yet powerful in love, compelling, inspiring, and rallying us.
