DO NOT plug more than a total of 1875 watts into this remote ground stake. If watts are not marked on appliance, multiply ampere rating (on nameplate) by 125 to determine equivalent watts. Add determined watts for each plugged-in appliance or lamp (sum of watts on bulbs) to find total watts being used. Operating temperature range –30°C (-22°F) to 45°C (113°F). Suitable for damp locations. Not for water immersion or for use where directly exposed to water. Store indoors when not in use.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

- Only use the batteries specified and be sure to match the + and - polarity markings.
- Do not mix old batteries and new batteries or standard (carbon-zinc) with alkaline batteries.
- Remove exhausted or dead batteries from the product.
- Remove batteries if product is not to be used for a long time.
- Do not dispose of batteries in fire. Batteries may explode or leak. As with all small items, these should be kept away from children. If swallowed, seek medical attention immediately.
