and policymakers **The Routledge Companion to Financial Services Marketing** Tina Harrison, Hooman Estelami, 2014-12-05 Interest in Financial Services Marketing has grown hugely over the last few decades particularly since the financial crisis which scarred the industry and its relationship with customers It reflects the importance of the financial services industry to the economies of every nation and the realisation that the consumption and marketing of financial services differs from that of tangible goods and indeed many other intangible services This book is therefore a timely and much needed comprehensive compendium that reflects the development and maturation of the research domain and pulls together in a single volume the current state of thinking and debate The events associated with the financial crisis have highlighted that there is a need for banks and other financial institutions to understand how to rebuild trust and confidence improve relationships and derive value from the marketing process Edited by an international team of experts this book will provide the latest thinking on how to manage such challenges and will be vital reading for students and lecturers in financial services marketing policy makers and practitioners *Sustainable Finance and Banking* Marcel Jeucken, 2010-09-23 Banking and finance play a fundamental role in public policy and economic performance as well as in all forms of commerce and industry They are crucial in determining whether society from governments to individual consumers succeeds in following an environmentally sustainable path However those working in the financial sector are largely unaware of the rationale and pressures for sustainable development and its bearing on their work while those in the relevant research and policy areas commonly overlook how vital the financial sector is for progress Marcel Jeucken sets out to rectify this state of affairs in a style which is accessible to those with no experience of environmental finance issues He provides a comprehensive account of their interdependence why the financial sector is crucial to achieving sustainability and why the triple bottom line of commercial environmental and social success points the way forward for banking From a systematic assessment of major banks around the world he presents a comprehensive account of current best practice an analysis of the differences in approach and performance and recommendations of actions and policies for improved performance that will contribute to sustainable development *Financial Institutions and Markets in South-west Pacific* Michael T.
