followed. Ballad writers were first spurred to respond in 1793 when the French monarchs were executed. France declared war upon Britain and paranoia regarding the possible threat of internal revolt in Britain reached a crisis point. As the decade proceeded, ballads were sung in thanks for the victory of British forces and local people against an invasion of Pembrokeshire by French troops and in reaction to key naval battles and to the extensive mobilization of militia and volunteer forces. Scholars working on the British response to the Revolution have showed increasing interest in exploring the contents of ballads and songs. The ballad in particular is seen as a vital source of information since it represents ordinary people's awareness of the developments of the period. Balladry is also subject to continued research within Welsh scholarship and this volume with its focus on a clearly defined historical period and its revelation of new voices within the canon of Welsh ballad writers will drive this field of study forwards. Regional reactions to the Revolution within the British Isles are also now seen as crucially important but Wales partly because of the inaccessibility of material composed in the Welsh language has repeatedly been omitted from the general picture. This volume aids in rectifying this situation ensuring by use of translation, copious contextualizing notes and a lengthy introduction that both the ballad genre and Welsh reactions receive the attention they deserve from the wider scholarly community.

Interfaces Baptists and Others David Bebbington, 2014-07-08. The book is a collection of twenty-one essays discussing how Baptists throughout the world have related to other Christians and to other institutions and movements over the centuries. The theme of this collection of twenty-one essays, *Baptists and Others*, includes relations with other Christians and with other institutions and movements. What the authors ask has been the Baptist experience of engaging with different groups and developments. The theme has been explored by means of case studies, some of which are very specific in time and place while others cover long periods and more than one country. In the first half the contents are arranged by period. The first section examines early Baptists, the second nineteenth-century Baptists in Britain and America, and the third Baptists in the twentieth century. The second half turns to various parts of the world. There is a section on Australia, another on New Zealand, and a third on Asia and Africa. The overall picture is one of a complicated series of relationships as Baptists defined themselves as different from other bodies and yet especially in the twentieth century tried to co-operate in mission and ecumenical endeavour. Baptists are often regarded as enthusiastic separatists and unenthusiastic ecumenists. These essays, based on hard evidence rather than passing impressions, are a necessary correction to superficial prejudices and show the reality to be much more complex and nuanced as well as varied over time and place. The book is a smorgasbord of delights. Yet readers should avoid the temptation to pick and choose from the menu ensuring rather that each offering is digested so they enjoy a balance and nutritious meal.
