Providing the first state-by-state analysis of major cost and financing issues, the book is based on data gathered from one of the most comprehensive surveys conducted in recent times in these states, which was specifically commissioned for this book. The survey covered 120,000 households and a thousand schools spread over 91 districts in eight states. Written by leading educational economists, the original essays in this volume analyse the major cost and financing issues in elementary schooling in seven of the eight states surveyed: Assam, Bihar, Madhya Pradesh, Rajasthan, Tamil Nadu, Uttar Pradesh, and West Bengal. They identify recent initiatives made by the governments of these seven states, systematically scrutinise the pattern of public spending in elementary education, examine enrolment in government schools and the quality of education that they impart, study household expenditure on schooling, the costs to parents of sending children to school, and compare government schools with private schools, showing how the private sector has begun to take over what should be the responsibility of the government, particularly in the poorer states. **TEACHER EDUCATION: CONTEMPORARY ISSUES, PRACTICES & PROSPECTS** Dr. Nandini Banerjee, Dr. Amarnath Das, Right to Education in India Praveen Jha, P. Geetha Rani, 2015-12-14 This is one of the first volumes to comprehensively discuss resource constraints and institutional challenges in realizing the Fundamental Right to Education (RTE) in India. It looks at various aspects of the Sarva Shiksha Abhiyan (SSA), the primary vehicle to implement RTE, and a flagship programme to universalize elementary education in the country. The book presents a comparative perspective across regions and states and evaluates the effective delivery of SSA at the grassroots level. Using rich empirical data not yet available in the public domain, it provides valuable lessons for the planning and financing arrangements of SSA/RTE between the centre and the states and towards understanding access, equity and quality of education. The work will be a major resource for scholars and researchers of
