Credential Market Quentin Maire, 2021-09-22 This book makes an original contribution to credential sociology by analysing how high school certificates become and remain valuable in a context of mass high school participation i.e. credentialism Building on a detailed analysis of the International Baccalaureate IB Diploma a senior secondary school certificate offered in over 150 countries Quentin Maire argues that the advent of new private credentials can be understood as a phenomenon of credential stratification in a context of intensified academic competition Using original data on high school credentials in Australia and internationally the author makes a strong case for certificates to be studied relationally by locating them in the credentialing structures in which they are inserted He systematically applies the comparative method to explain the role of the curriculum family resources school segregation and higher education selection in creating a credential hierarchy His robust combination of theoretical construction and detailed empirical work allows him to offer new insights into social inequality in education systems credential theory and the IB Diploma **Missouri Conservationist**, 2014

Motivational development in current educational contexts Manuel Castro-Sánchez, Ramón Chacón-Cuberos, Lucia Herrera, Guillermo Felipe López Sánchez, 2023-06-06 Narrating the Soviet Era in Russian School History Textbooks Olga Konkka, 2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917-1991 Representations of this part of Russia's past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin This study combines research into these texts and inquiry into those who write, publish, approve or criticize them Bringing together these perspectives provides a more complex view of school textbooks as final products of both top-down and bottom-up processes This volume is aimed at postgraduate researchers and academics specializing in Soviet history contemporary Russian politics and society and history education and textbooks *Sustainable sanitation- how can we improve sanitation systems in the global south?* Shikun Cheng, Devendra P.
