Designing Learning Environments for Developing Understanding of Geometry and Space Richard Lehrer, Daniel Chazan, 2012-11-12 This volume reflects an appreciation of the interactive roles of subject matter teacher student and technologies in designing classrooms that promote understanding of geometry and space Although these elements of geometry education are mutually constituted the book is organized to highlight first the editors vision of a general geometry education second the development of student thinking in everyday and classroom contexts and third the role of technologies Rather than looking to high school geometry as the locus and all too often the apex of geometric reasoning the contributors to this volume suggest that reasoning about space can and should be successfully integrated with other forms of mathematics starting at the elementary level and continuing through high school Reintegrating spatial reasoning into the mathematical mainstream indeed placing it at the core of K 12 mathematics environments that promote learning with understanding will mean increased attention to problems in modeling structure and design and reinvigoration of traditional topics such as measure dimension and form Further the editors position is that the teaching of geometry and spatial visualization in school should not be compressed into a characterization of Greek geometry but should include attention to contributions to the mathematics of space that developed subsequent to those of the Greeks This volume is essential reading for those involved in mathematics education at all levels including university faculty researchers and graduate students *School Mathematics Curricula* Catherine P. Vistro-Yu, Tin Lam Toh, 2019-04-26 This book sheds light on school mathematics curricula in Asian countries including their design and the recent reforms that have been initiated By discussing and analyzing various problematic aspects of curriculum development and implementation in a number of East and South Asian countries and offering insights into these countries unique approaches to supplementing school mathematics curricula it contributes to shaping effective policies for implementation assessment and monitoring of curricula The book covers a wide range of issues curriculum design localization of curricula directions of curricular reforms mathematics textbooks assessment within the curriculum and teachers professional development which are of interest to a wide international audience Interfaith Education for All Duncan R. Wielzen, Ina Ter Avest, 2017-10-10 Living together in the midst of diversity is an issue of pivotal

importance all over the world in particular for people involved in the education of the younger generation The search intended in this publication is to find the means to go beyond mere tolerance of differences Education as envisioned in this book engages learners in active citizenship and enables pupils and students young people to transform their social environment Learning about the other and to a certain extent appreciating the other s perspective together with acquiring dialogical skills are key elements for learning to live together with people from different cultural backgrounds and with diverse religious and secular worldviews Hence faith development dialogicality and citizenship are central themes in this publication This book brings together the latest insights and best practices available in the fields of religious education from around the world which are reflected upon by distinguished scholars in the field The input provided by the three parts of this book will give every educator further food for thought be it in the classroom at home or in leisure activities The diversity approach of this book is mirrored in the composition of the team of editors Duncan Wielzen is a theologian with research interest in religious education in plural societies Ina Ter Avest is a psychologist with a focus on the intersectionality of psychology culture and religion The focus of both editors is on inter faith education its implication and further development
