Xviii Abn Corp Policy Letter 64:

Airborne Operations in World War II, European Theater John Cushman Warren, 1956 This monograph describes the planning and execution of airborne operations by the Army Air Forces in the European Theater during World War II. Intended to serve as a case history of large scale airborne operations, it seeks to analyze and evaluate them as a basis for doctrine and for the benefit of future planners. Chapters are as follows: 1 The Airborne Invasion of Normandy: Plans and Preparations including the COSSAC Phase, deployment and training, final preparations and deception and diversion; 2 The Assault including various paratroop and glider missions; 3 From Neptune to Market which focuses on organizational changes, plans and campaigns during the Campaign in France, the planning of Operation Market and preliminary support operations; 4 Market: The Airborne Invasion of Holland which includes descriptions of operations in various sections of Holland; 5 Varsity: The Airborne Assault Across the Rhine including planning, training, security measures, auxiliary air operations and lift and initial operations of the British Airborne Division, American Paratroops and American Glider Troops; and 6 Conclusions Regarding Large Scale Airborne Operations. *The Army Lawyer*, 1989. *Public Papers of the Presidents of the United States*, United States. It was first published in French by the Institut du Transport Aerien in 1998 and received very favourable reviews. Through the publication of the English language edition, this remarkable work is now accessible to many more readers around the world. In addition, the author has expanded the book with new sections and he has extensively updated it to bring the story of air cargo into the twenty-first century, concluding with a look into the future. The author, Camille Allaz, served as Senior Vice President Cargo at Air France for 10 years, which gave him an insider's close-up view of his subject, a privilege not enjoyed by many historians. There is no aspect of mail or cargo transport by air that has not been thoroughly researched and documented by Allaz, from the first brief transport of animals by balloon in France in 1783 to the vast global networks of the integrated express carriers in the 21st century. As a true scholar, he fits his narrative into the

larger framework of political military economic and aviation history This book should stand for years as the definitive work on the history of air cargo and airmail and will be of immense value to the academic community to the air cargo industry the postal services and to the general public **Army** ,1960 **Index Medicus** ,2004 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings The Medical Department Graham A.
