Sophia Huber,2018-06-13 Knowledge about one's linguistic background especially when it is different from mainstream varieties provides a basis for identity and self. Ancestral values can be upheld, celebrated and rooted further in the consciousness of its speakers. In the case of African American Vernacular English (AAVE) the matter is not straightforward and ultimately the social implications its speakers still face today are unresolved. Through detailed analysis of the four building blocks: phonology, morphology, syntax and vocabulary, Sophia Huber tries to trace the development of AAVE as a literary dialect. By unearthing in what ways AAVE in its written form is different from the spoken variety, long established social stigmata and stereotypes which have been burned into the consciousness of the USA through a initially white dominated literary tradition will be exposed. Analysing fourteen novels and one short story featuring AAVE it is the first linguistic study of this scope.

The Cambridge Companion to Contemporary African American Literature Yogita Goyal,2023-12-21 African American literature has changed in startling ways since the end of the Black Arts Era. The last five decades have generated new paradigms of racial formation and novel patterns of cultural production, circulation and reception. This volume takes up the challenge of mapping the varied and changing field of contemporary African American writing. Balancing the demands of historical and political context with attention to aesthetic innovation, it considers the history, practice and future directions of the field. Examining various historical forces shaping the creation of innovative genres, the turn to the afterlife of slavery, the pull toward protest and the impact of new and expanded geographies and methods, this Companion provides an invaluable point of reference for readers seeking rigorous and cutting edge analyses of contemporary African American literature.
