Chavous details the many ways education today is off track and cites specific examples of what Americans might do to reform it Part memoir and part manifesto this is a frank fascinating and personal account of Chavous experience as a politician working to enact school choice in Washington DC and throughout the United States During the course of his political career he has seen political skirmishes and party scuffles interfere with the United States ability to improve its educational system These conflicts did not cause the problem they were merely a result The true problem was more basic the decline of America s learning culture This pivotal work calls for Americans to unite in making the changes needed to re establish a learning culture as an inherent piece of the American national fabric and tells us how to begin
