Paredes (USMCR),2025-03-18 Coming to America from Ecuador was a dream come true since I was a child It was how everyone portrayed it the way of life and that no matter who you are or where you came from you can achieve your goals if you set your mind to it known as the American dream After I obtained my bachelor of science in marine engineering with a coast guard license from Massachusetts Maritime Academy I started shipping with steam and diesel ships all over the world carrying containers military equipment jet fuel grain and coal just to name a few But as I was raised to be thankful and respectful to me I owed a debt to America for giving me the opportunity what I have become By the age of twenty nine I joined the US Marines in the enlisted program and later became a Marine officer in the infantry In the Marine Corps we were constantly training to be proficient on the war fighting principles Even though we train for combat seeing and experiencing real life situations is different The accounts that I have written in this book is from real life experiences awards given to the Marines and sailors that were in that situation and talking to them during the battle The Second Battle for Fallujah is known as one of the bloodiest battles in which I tell the story of some accounts and how we made it through **Raised by Wolves** Keith Felix,2012-02-06 *Directives, publications, reports index* United States. Johnson,2018-05-01 The United States Marine Corps has a unique culture that ensures comradery exacting standards and readiness to be the first to every fight Yet even in a group

that is known for innovation culture can push leaders to fall back on ingrained preferences Jeannie L Johnson takes a sympathetic but critical look at the Marine Corps s long experience with counterinsurgency warfare Which counterinsurgency lessons have been learned and retained for next time and which have been abandoned to history is a story of battlefield trial and error but also a story of cultural collisions The book begins with a fascinating and penetrating look inside the culture of the Marine Corps through research in primary sources including Marine oral histories and interviews with Marines Johnson explores what makes this branch of the military distinct their identity norms values and perceptual lens She then traces the history of the Marines counterinsurgency experience from the expeditionary missions of the early twentieth century through the Vietnam War and finally to the Iraq War Her findings break new ground in strategic culture by introducing a methodology that was pioneered in the intelligence community to forecast behavior Johnson shows that even a service as self aware and dedicated to innovation as the Marine Corps is constrained in the lessons learned process by its own internal predispositions by the wider US military culture and by national preferences Her findings challenge the conclusions of previous counterinsurgency scholarship that ignores culture This highly readable book reminds us of Sun Tzu s wisdom that to be successful in war it is important to know thyself as well as the enemy This is a must read for anyone interested in the Marines Corps counterinsurgency warfare military innovation or strategic culture
