Tamanaha Piece by piece Tamanaha lays out the how and why of the crisis and the likely consequences if the current trend continues The out of pocket cost of obtaining a law degree at many schools now approaches 200 000 The average law school graduate's debt is around 100 000 the highest it has ever been while the legal job market is the worst in decades Growing concern with the crisis in legal education has led to high profile coverage in the Wall Street Journal and the New York Times and many observers expect it soon will be the focus of congressional scrutiny Bringing to the table his years of experience from within the legal academy Tamanaha provides the perfect resource for assessing what's wrong with law schools and figuring out how to fix them *Failing Law Schools* presents a comprehensive case for the negative side of the legal education debate and I am sure that many legal academics and every law school dean will be talking about it Stanley Fish Florida International University College of Law [U. to focus solely on pedigree and prestige while tempting educators to sacrifice academic integrity for short term competitive advantage By forcing colleges into standardized best college hierarchies he argues rankings have threatened the institutional diversity intellectual rigor and social mobility that is the genius of American higher education As a former university administrator who refused to play the game Diver leads his readers on an engaging journey through the mysteries of college rankings admissions financial aid spending policies and academic practices He explains how most dominant college rankings perpetuate views of higher education as a purely consumer good susceptible to unidimensional measures of brand value and prestige Many rankings he asserts also undermine the moral authority of higher education by encouraging various forms of distorted behavior misrepresentation and outright cheating by ranked institutions The recent Varsity Blues admissions scandal for example happened in part because affluent parents wanted to get their children into elite schools by any means necessary Explaining what is most useful and important in evaluating colleges Diver offers both college applicants and educators a guide to pursuing their highest academic goals freed from the siren song of the best college illusion Ultimately he reveals how to break ranks with a rankings industry that misleads its consumers undermines academic values and perpetuates social inequality
