Usages Et Enjeux Des Technologies De Communication

Frédéric Lesage, Michael Terren

Usages Et Enjeux Des Technologies De Communication:

Usages et enjeux des technologies de communication Francis Jauréguiberry, Serge Proulx, 2011 Cet ouvrage présente de façon synthétique en les recoupant par thèmes et approches la plupart des travaux qui depuis vingt ans ont cherché rendre compte des usages de technologies de communication c'est-à-dire des objets, outils et dispositifs techniques permettant l'interaction à distance et une réciprocité dans la communication téléphonie, internet, jeux en ligne. Mettant l'accent sur la mesure des changements que ces usages ont induits, il en expose les enjeux en termes économique, politique et social.

Digital Health Communications Benoit Cordelier, Olivier Galibert, 2021-07-07

ECHNOLOGICAL PROSPECTS AND SOCIAL APPLICATIONS SET Coordinated by Bruno Salgues

There are many controversies with respect to health crisis management: the search for information on symptoms, misinformation on emerging treatments, massive use of collaborative tools by healthcare professionals, deployment of applications for tracking infected patients. The Covid 19 crisis is a relevant example about the need for research in digital communications in order to understand current health information communication. After an overview of the challenges of digital healthcare, this book offers a critical look at the organizational and professional limits of ICT uses for patients, their caregivers and healthcare professionals. It analyzes the links between ICT and ethics of care where health communication is part of a global humanistic and emancipating care for patients and caregivers. It presents new digitized means of communicating health knowledge that reveal, thanks to the Internet, a competition between biomedical expert knowledge and experiential, secular knowledge.

From UXD to LivXD Sylvie Leleu-Merviel, Daniel Schmitt, Philippe Useille, 2019-04-09

Living eXperience Design The design of life experiences is an extension of user experience design (UXD). The context comprises usage and practice in real contexts in which spatial, urban, social, temporal, historical and legal dimensions are considered. Reflecting upon LivXD is to examine the whole experience of a target audience in a variety of situations and not only in those involving digital technology. This book begins with the definition of LivXD and its associated epistemology and proceeds to detail field experiments in certain privileged areas: the relation to creation and works, mediation and adult education.

Science, Technology and Innovation Culture Marianne Chouteau, Joelle Forest, Céline Nguyen, 2018-10-08

We are facing unprecedented challenges today. For

many of us innovation would be our last hope But how can it be done Is it enough to bet on the scientific culture How can technical culture contribute to innovation How is technical culture situated with regards to what we name collectively the culture of innovation It is these questions that this book intends to address **Hyperconnectivity** Dominique Carré, Geneviève Vidal, 2018-10-10 The use of digital information and communication technologies would be the traces of a social acceptability of the exploitation of all data in the context of negotiations of uses This is the reason why the users present themselves actors and contributors of the hyperconnectivity We would thus witness a new form of dissemination inviting user experience and social innovations It is thus the victory of subordination by negotiated renunciation A new form of serving no longer that of the 1980s with the counters and other services which have become uncontrolled services excepted when the users are overcome by restrictive ergonomics revealing too much the subordination device which joins the prescription apparently without an injunction The lure is at its height when users and broadcasters come together to produce the services and goods composing the business model until the very existence of the companies in particular the pure players Crowdsourcing becomes legitimate consumers create the content deliver the data the basis of the service sold in a painless way because free access most of the time indirect financing the providers make available and administer the service networks Interfaces representing considerable costs also reputation to attract the attention of other consumers or contributors In these conditions the environmental stakes are considerable so we propose another way of considering them not as they are dealt with material and pollution but according to the prism of the relational practices analyzed in this volume

Communications numériques en santé Benoit Cordelier, Olivier Galibert, 2021-03-01 Controverses sur la gestion des crises sanitaires recherche d'informations sur les symptômes fausses informations sur les traitements émergents usage massif d'outils collaboratifs par les professionnels de santé d'adoption d'applications de traitement des maladies infectieuses La crise de la COVID 19 représente un exemple pertinent de la nécessité de la recherche en communication numérique permettant de comprendre le contexte informationnel en santé actuel Après un tour d'horizon des enjeux du numérique en santé cet ouvrage offre un regard critique sur les limites organisationnelles et professionnelles des usages des TIC pour les malades leurs aidants et les professionnels du soin Il analyse les liens entre TIC et éthique du soin car la communication en santé participe d'une prise en charge globale humaniste et mancipatrice pour les patients et les aidants Il présente les nouvelles formes numériques de la médiation des savoirs en santé qui voient travers Internet une mise en concurrence des savoirs experts biomédicaux et des savoirs profanes expérientiels **Science Fiction and Innovation Design** Thomas Michaud, 2020-10-22 Science fiction is often presented as a source of utopia or even of prophecies used in capitalism to promote social political and technoscientific innovations Science Fiction and Innovation Design assesses the validity of this approach by exploring the impact this imaginary world has on the creativity of engineers and researchers Companies seek to anticipate and predict the future through approaches such as design fiction mobilizing representations of science fiction to create prototypes and

develop scenarios relevant to organizational strategy The conquest of Mars or the weapons of the future are examples developed by authors to demonstrate how design innovation involves continuous dialogue between multiple players from the scientist to the manager through to the designers and the science fiction writers

Digital Technologies and African Societies Julien Atchoua, Jean-Jacques Maomra Bogui, Saikou Diallo, 2020-11-17 The integration and use of information and communication technologies ICT in African countries is increasingly observable in various sectors of activity banking education trade etc despite a digital divide still relevant ICT has become a major sector of the recent growth of a new informal economy in African cities Ch neu Loquay 2008 This question has been at the heart of various international meetings An overall positive and even utopian momentum is generally heard about the contribution of digital technologies to the development of African states The adoption or appropriation of digital technologies by Africans is presented in many speeches by politicians or institutions involved in the field of cooperation and international development as an important issue for the development of this continent These different considerations give rise to reflections on the following themes Social Media and Public Space in Africa Challenges of the digital economy in Africa ICT and modernization of higher education in Africa

Internet ou la boîte à usages Serge Dufoulon, 2013-01-01 Nouvel espace d'expression et de construction identitaire sur l'Internet la parole circule en v'iculant les heurs et les malheurs de l'humanité Libre parfois censurée classique ou nouvelle la parole prend des formes multiples L'Internet informe et mobilise la raison les sens l'imaginaire mais aussi la norme et le droit Les contributions de cet ouvrage nous donnent voir des terres peuplées de tracas mais aussi mieux entrevoir des paysages vierges d'usages libres de toute raisons utilitaire

Aide mémoire - Marketing digital Catherine Lejealle, Thierry Delecolle, 2017-06-14 Jamais le marketing n'aura connu autant de révolutions qu'avec Internet Cet aide mémoire vise comprendre et appréhender les transformations du marketing liées au digital tant sur la demande des consommateurs l'offre que l'entreprise Il permet ensuite d'assimiler toutes les notions indispensables du marketing digital et apporte un éclairage sur le nouveau tunnel de conversion et les stratégies mettre en place brand content inbound marketing médias sociaux growth hacking Un glossaire est présent en fin d'ouvrage

Sustainable Development Goals in the Asian Context Jan Servaes, 2016-11-04 This book presents research that focuses on Sustainable Development in Asia Chapters are extended works of papers presented at Communication Culture and The Sustainable Development Goals CCSDG Challenges for a New Generation an international conference held in Chiang Mai University in December 2015 The chapters address assessments of Millennium Development Goals in several Asian countries and the region as a whole The book also identifies and discusses the changes and potential improvements in the transition from Millennium Development Goals 2000-2015 to Sustainable Development Goals 2015-2030 Areas that are covered in the book which are illustrated with case studies include Corporate Social Accountability Information and Communications Technologies and Small Medium Enterprises SMEs The book serves as a useful resource for academics scholars students and policymakers interested in

Development Studies **Creative Tools and the Softwarization of Cultural Production** Frédéric Lesage, Michael Terren, 2024-01-17 This book explores how creativity is increasingly designed marketed and produced with digital products and services a process referred to as softwarization If being creative has developed into one of the paradigmatic architectures of power for framing the contemporary subject then an essential component of this architecture involves its material and symbolic configuration through tools From image editors to digital audio workstations video editors to game engines these modern tools are used by creatives every day and mastering these increasingly complex technologies is now a near compulsory pathway to creative work Despite their ubiquity in cultural production few have sought to theorize them in aggregate and with interdisciplinary breadth By bringing disparate creative and methodological traditions in one volume this book provides a comprehensive overview of approaches for understanding this complex emerging and dynamic field that speaks beyond the disciplinary categories of tool instrument and or software It makes a unique intervention in the fields of cultural production and the cultural and creative industries **Technologies and African Societies in Pandemic Times** Saikou Diallo, Jean-Jacques Maomra Bogui, Julien Atchoua, 2023-08-15 In February 2020 the Coronavirus pandemic became a worldwide health emergency and in April of that year the ITU and the WHO created a joint declaration to show their commitment to using ICTs to overcome the pandemic Technologies and African Societies in Pandemic Times explores the impact of Covid 19 on African societies in North and West Africa through the lens of technology and social media The authors of this book highlight how everyday people dealt with the pandemic from its onset through the process of the development of the vaccine and to its eventual dissemination This book tells stories of survival of coping and eventually of economically thriving The authors also describe how in this extremely challenging moment for humanity people used music art and social media to reinvent the community to share joy and pain and to try to remain connected **Médias dits sociaux ou médias dissociants ?** Philippe Viallon, Elizabeth Gardère, 2020-11-19 partir d'une revue de la littérature scientifique et professionnelle française et internationale ce livre explique la complexité de ces nouveaux médias que nous utilisons quotidiennement sans y penser Le XXI^e siècle a vu les pratiques numériques intégrer notre quotidien tant dans la sphère personnelle que dans l'univers professionnel Les médias sociaux en sont l'une des manifestations les plus videntes Que ce soit pour le partage ou la recherche d'informations la génération Y a grandi avec eux mais ils ont également conquis les générations précédentes Sont-ils porteurs de liens sociaux ou au contraire ont-ils un caractère dissociant Provoquent-ils une forme de délitement de la relation au bénéfice de l'interface La génération née avec ces modes de connexion généralisés adopte désormais d'autres usages voire de tournements qui sont analysés ici fake news dark web etc Le développement des moyens de communication mobiles et autres systèmes embarqués s'inscrit dans des logiques d'instantanéité de reconfiguration de l'espace temps et de la relation interpersonnelle contribuant leur avènement irrésistible Ce livre traite de cette forme de communication qui oscille entre virtualité et réalité et explique ce qui rend le phénomène si complexe *TIC, technologies*
