Anaodozie,2021-03-09 In Africans at Home and in the United States One People One Problem One Destiny Emeka C

Anaodozie examines Pan African cultural and intellectual history focusing on sociocultural commonalities and challenges facing African people To this end Dr Anaodozie argues that since oppression divided Africans Pan Africanism is the natural antidote to the subjugation that forcefully separated enslaved and colonized Africans **Race and Education in New Orleans** Walter Stern,2018-05-04

Surveying the two centuries that preceded Jim Crow s demise Race and Education in New Orleans traces the course of the city s education system from the colonial period to the start of school desegregation in 1960 This timely historical analysis reveals that public schools in New Orleans both suffered from and maintained the racial stratification that characterized urban areas for much of the twentieth century Walter C Stern begins his account with the mid eighteenth century kidnapping and enslavement of Marie Justine Sirnir who eventually secured her freedom and played a major role in the development of free black education in the Crescent City As Sirnir s story and legacy illustrate schools such as the one she envisioned were central to the black antebellum understanding of race citizenship and urban development Black communities fought tirelessly to gain better access to education which gave rise to new strategies by white civilians and officials who worked to maintain and strengthen the racial status quo even as they conceded to demands from the black community for expanded educational opportunities The friction between black and white New Orleanians continued throughout the nineteenth century and well into the twentieth when conflicts over land and resources sharply intensified Stern argues that the post Reconstruction reorganization of the city into distinct black and white enclaves marked a new phase in the evolution of racial disparity segregated schools gave rise to segregated communities which in turn created structural inequality in housing that impeded desegregation s capacity to promote racial justice By taking a long view of the interplay between education race and urban change Stern underscores the fluidity of race as a social construct and the extent to which the Jim Crow system evolved through a dynamic though often improvisational process A vital and accessible history Race and Education in New Orleans provides a comprehensive look at the ways the New Orleans school system shaped the city s racial and urban landscapes [Reader's Guide to American History](#) Peter J. Kathan,2023-11-30 Our national holidays have been trivialized by merchandising consumerism and long weekends What do you know about the origins of the national holidays of the United States Boardman Kathan presents the persons and events that each of our holy days commemorates In so doing he explores the shaping of American history and identity revealing often misunderstood parts of our national story from a new approach Each chapter looks at the many books and research written about the events commemorated by these holidays showing their relevance for today Kathan includes discussion of

the spiritual or religious dimensions of these national observances pointing out that although the United States was not founded as a Christian nation on biblical principles people throughout American history have perceived a divine guidance or what George Washington called providential care This book reflects back on the original meaning of these days and seeks to inspire renewed forms of celebration commemoration and observance Celebrating patriotic holidays can bring us together as a people especially in times of stress and conflict Schools religious institutions patriotic organizations readers interested in history in short the general public will find this an enjoyable aid for recalling our history reclaiming our values and traditions and restoring a sense of community

Past Imperfect Peter Charles Hoffer, 2007-07-03 Woodrow Wilson a practicing academic historian before he took to politics defined the importance of history A nation which does not know what it was yesterday does not know what it is today He like many men of his generation wanted to impose a version of America s founding identity it was a land of the free and a home of the brave But not the braves Or the slaves Or the disenfranchised women So the history of Wilson s generation omitted a significant proportion of the population in favor of a perspective that was predominantly white male and Protestant That flaw would become a fissure and eventually a schism A new history arose which written in part by radicals and liberals had little use for the noble and the heroic and that rankled many who wanted a celebratory rather than a critical history To this combustible mixture of elements was added the flame of public debate History in the 1990s was a minefield of competing passions political views and prejudices It was dangerous ground and at the end of the decade four of the nation s most respected and popular historians were almost destroyed by it Michael Bellesiles Doris Kearns Goodwin Stephen Ambrose and Joseph Ellis This is their story set against the wider narrative of the writing of America s history It may be as Flaubert put it that Our ignorance of history makes us libel our own times To which he could have added falsify plagiarize and politicize because that s the other story of America s history
