Sentencing, Public Opinion, and Criminal Justice, 2025-01-16 This volume celebrates the achievements of Julian V Roberts KC, Hon Emeritus Professor of Criminology at the University of Oxford, over forty years of scholarship. To mark his extraordinary influence on sentencing and criminal justice on the global stage, the contributors, a mix of international scholars and members of the judiciary, present a collection of themed essays in his honour. Roberts is a leading academic authority on sentencing theory, policy, and practice in common law jurisdictions, and his work has made a landmark contribution to the analysis and development of sentencing worldwide. His work is innovative and inspired, known for identifying core challenges and defining research needs before they become central to criminal justice agendas. A distinguished group of authors engage in an interdisciplinary appreciation of Roberts' work in three distinct domains: fundamentals of sentencing and penal theory; sentencing policy and penal practice; and public opinion and criminal justice. Drawn from seven jurisdictions, the authors offer fresh insight into Roberts' past accomplishments as well as the future of the field that he continues to shape. Together, they demonstrate a collective commitment to advancing Roberts' lifelong project of normative, comparative, and empirical engagement with questions of crime and justice.

21st Century Criminology: A Reference Handbook, J. Mitchell Miller, 2009-08-06 Criminology has experienced tremendous growth over the last few decades, evident in part by the widespread popularity and increased enrollment in criminology and criminal justice departments at the undergraduate and graduate levels across the U.S. and internationally. Evolutionary, paradigmatic shift has accompanied this surge in definitional, disciplinary, and pragmatic terms. Though long identified as a leading sociological specialty area, criminology has emerged as a stand-alone discipline in its own right, one that continues to grow and is clearly here to stay. Criminology today remains inherently theoretical but is also far more applied in focus and thus more connected to the academic and practitioner concerns of criminal justice and related professional service fields. Contemporary criminology is also increasingly interdisciplinary and thus features a broad variety of ideological orientations to and perspectives on the causes, effects, and responses to crime.

21st Century Criminology: A Reference Handbook provides straightforward and definitive overviews of 100 key topics comprising traditional criminology and its modern outgrowths. The individual chapters have been designed to serve as a first look reference source for most criminological inquiries. Both connected to the sociological origins of criminology, i.e., theory and research methods, and the justice systems' response to crime and related social problems, as well as coverage of major crime types, this two-volume set offers a comprehensive overview of the current state of criminology. From student term papers and masters theses to researchers commencing

Sentence Discounts and the Criminal Process Ralph J Henham, 2017-09-20 This title was first published in 2001 This volume presents the results of an empirical investigation into the operation of sentence discounts for guilty pleas in the Crown Court It focuses primarily on the nature of judicial compliance with the S48 Criminal Justice and Public Order Act 1994 and those variables in sentence decision making which impact on this process It also examines the relative use made of sentence discounts and the nature and relevance of court of appeal guidance In doing so it raises important theoretical issues relating to sentencing research and addresses the implications for sentencing policy and practice With empirical research on the operation of the sentencing process being comparatively rare the book should make an important contribution to the existing literature
