ESOL Lesson Planner Galina St George,2019-12-03 Every teacher knows that a good lesson needs planning and preparation It applies to everything we teach and ESOL is certainly no exception I have been asked occasionally to teach classes at very short notice which means no preparation and I have managed to do it However it has always left me with a sense of frustration which is why I rarely agree to do it these days because I like to be prepared in order to make my lessons count Having recently returned to teaching I have discovered that I had two major issues 1 I couldn t find a lesson plan template I liked 2 My lesson plans kept getting lost among the paperwork So I decided to create a book which I was going to use for my lesson planning I worked out a plan template which I liked I didn t want to make it too long Like everyone else I have a life and detailed plans are time consuming So it needed to be short I aimed to fit it into 1 page with the second page expanding on the activities takeaways and other aspects should there be a need for a more detailed description Once the book gets published I will be ordering a couple of copies of the ESOL Lesson Planner for myself I hope that you find the templates as useful as I have found it so far it s just that from now on I will have all of my plans in one place which can t be a bad thing
